Civil, Structural and Environmental Engineering Xiang Dong Zhang,Bin Zhang,Li Zhong Jiang,Mo Wen Xie,2013-11-08 Selected peer reviewed papers from the 2013 2nd Global Conference on Civil Structural and Environmental Engineering GCCSEE 2013 September 28 29 2013 Shenzhen China

Professional Memoirs, Corps of Engineers, United States Army and Engineer Department at Large ,2003 Revamping Architectural Education Rajesh Sharma,2018-06-08 The book that you hold in your hands is a treasure trove of ideas to set into motion a new generation of learning for architects As the author is a practitioner of this technology called architecture he have often felt that globally it is the last field of knowledge that still displays vestiges of a holistic renaissance attitude of mind It has not fallen victim to our global love for economic development above all other considerations and is not always a handmaiden of consumerist culture Architects are somewhat obsessed with form Despite this or inspite of it the combine and harmonize the field of applied arts with the sciences the attitudes of engineering optimization with the expression of the visual arts covering subjects as diverse as chemistry and history India is possibly the world s largest future market for private sector architects today If we do not adapt our archiectural practice starting with our architectural teaching practices we run the clear and present danger of becoming

extinct in the race for economic development and urbanization which is truly sustainable resilient sufficient and equitable In reading this little gem of a book the author would urge the reader to look beyond formulae and descriptions and generate an agenda for reform beyond just the curriculum and towards transformation As Indian society struggles to understand its architects the profession owes a duty to itself to remain relevant to social needs and aspirations to create a nation of our dreams And the author hopes that the beginning of that agenda can be found in the pages of this book interpreted by every reader individually
