Jonathan Little is a highly successful poker professional who has won over 4 million in tournament play. His first book, *Secrets of Professional Tournament Poker Volume 1*, dealt with the fundamentals of play. In this second book, he builds on this base by examining the highly complex issue of how to handle the different stages of a tournament, as well as outlining a technically accurate style of play. Jonathan also discusses a number of other topics that are crucial to success at poker. These include how to spot tells and avoid giving them, correct etiquette, practical tips for tournament play, and managing life as a professional poker player. Jonathan throws up a number of issues in itself and calls upon his many years as a pro to address these. They include developing your poker skills, mental and physical approaches required for successful play, as well as being one of the world's best players. Jonathan has been a highly respected coach for many years. In the final section of the book, he draws on his experience here to answer the most common FAQs asked by students and also offers an in-depth analysis of 30 hands from tournament play which outline many of the concepts discussed in the book. In his professional career, he has won the WPT twice. In 2010, he cashed 5 times in the WSOP, including a third-place finish.

Positive Poker Dr. Patricia Cardner with Jonathan Little, Why are the best poker players actually the best? Every serious poker player wants to be successful, and many of them have the right technical skills. However, the truth is that there are key mental factors that separate the big winners from everyone else. Patricia Cardner is a psychology professor, licensed professional counselor, and dedicated poker player. She interviewed a select group of professional poker players who share two key characteristics: ALL of them have been successful over many years, and ALL of them have lifetime winnings of more than 1,000,000. This book is the result of her studies. *Positive Poker* outlines the mental skills that you need to develop if you want to raise your game. *Positive Poker* will help you to optimize your brain for efficient learning, increase motivation, and stay positive. Use psychological skills to increase your win rate, increase self-control, and reduce tilt.
