A Holocaust Reader Lucy S. Dawidowicz, 1976 A collection of official and private documents traces the growth of and reveals the Jewish response to German anti-Semitism during World War II

Jews and Intermarriage in Nazi Austria Evan Burr Bukey, 2010-12-31 Evan Burr Bukey explores the experience of intermarried couples marriages with Jewish and non Jewish partners and their children in Vienna after Germany's seizure of Austria in 1938 These families coped with changing regulations that disrupted family life pitted relatives against each other and raised profound questions about religious ethnic and national identity Bukey finds that although intermarried couples lived in a state of fear and anxiety many managed to mitigate delay or even escape Nazi sanctions Drawing on extensive archival research his study reveals how hundreds of them pursued ingenious strategies to preserve their assets to improve their racial status and above all to safeguard the position of their children It also analyzes cases of intermarried partners who chose divorce as well as persons involved in illicit liaisons with non Jews

Jews and Intermarriage in Nazi Austria concludes that although most of Vienna's intermarried Jews survived the Holocaust several hundred Jewish partners were deported to their deaths and children of such couples were frequently subjected to Gestapo harassment

The Palgrave International Handbook of Mixed Racial and Ethnic Classification Zarine L. Rocha, Peter J. Aspinall, 2020-01-03 This handbook provides a global study of the classification of mixed race and ethnicity at the state level bringing together a diverse range of country case studies from around the world The classification of race and ethnicity by the state is a common way to organize and make sense of populations in many countries from the national census and birth and death records to identity cards and household surveys As populations have grown diversified and become increasingly transnational and mobile single and mutually exclusive categories struggle to adequately capture the complexity of identities and heritages in multicultural societies State motivations for classification vary widely and have shifted over time ranging from subjugation and exclusion to remediation and addressing inequalities The chapters in this handbook illustrate how differing histories and contemporary realities have led states to count and classify mixedness in different ways for different reasons This collection will serve as a key reference point on the international classification of mixed race and ethnicity for students and scholars across sociology ethnic and racial studies and public policy as well as policy makers and

[In the Shadow of the Holocaust](#) James F. Tent, 2003. James Tent recounts how these men and women from all over Germany and from all walks of life struggled to survive in an increasingly hostile society even as their Jewish relatives were disappearing into the East. It draws on extensive interviews with twenty survivors, many of whom were teenagers when Hitler came to power, to show how half-Jews coped with conditions on a day-to-day basis and how the legacy of the hatred they suffered still lingers in their minds.

Hitler's Jewish Soldiers Bryan Mark Rigg, 2002. On the murderous road to racial purity, Hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding Jewish identity. After centuries of Jewish assimilation and intermarriage in German society, he discovered that eliminating Jews from the rest of the population was more difficult than he had anticipated. As Bryan Rigg shows in this provocative new study, nowhere was that heinous process more fraught with contradiction and confusion than in the German military. Contrary to conventional views, Rigg reveals that a startlingly large number of German military men were classified by the Nazis as Jews or partial Jews (Mischlinge) in the wake of racial laws first enacted in the mid-1930s. Rigg demonstrates that the actual number was much higher than previously thought, perhaps as many as 150,000 men, including decorated veterans and high-ranking officers, even generals and admirals. As Rigg fully documents for the first time, a great many of these men did not even consider themselves Jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived German nation. In turn, they had been embraced by the Wehrmacht, which prior to Hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers. The process of investigation and removal, however, was marred by a highly inconsistent application of Nazi law. Numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier's parent, spouse, or other relative from incarceration or, far worse, Hitler's own signature can be found on many of these exemption orders. But as the war dragged on, Nazi politics came to trump military logic, even in the

face of the Wehrmacht's growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions of other victims of the Third Reich Based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred Mischlinge and their relatives Rigg's study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of Hitler's rule
