Beyond the Issues Pamela Sue Morgan,1998 **Speaking from the Margin** Anna Duszak,Urszula Okulska,2004 The papers in this volume analyze the language situation under globalization in several European countries How does the spread of Global English affect the integrity of the local systems Changes in lexical and discursive repertoires are evidenced and discussed It is shown how new social identities are linguistically constructed and redefined in the social consciousness of the various local communities The authors see globalization as a major change in progress that sets in relief the dual capacity of language communication and identification The collection reconciles empirical data analysis with profound attention to a host of theoretical issues such as a new ecology for language under globalization or a new interdiscursivity of globalizing communications It is argued that globalization as recontextualization of meanings poses a serious challenge for a new science of language The spatial imagery of center margin is chosen to expound on the complex interaction between the global and the local The concept of a glocal view on language affords a new perspective for coping with massive linguistic change

Linguistics and Language Behavior Abstracts ,1996 *Terminologie et traduction* ,1997 **Meaning and Translation** Tomasz P. Krzeszowski,2012 Since translation cannot be approached in isolation from meaning anything that is said about translation must necessarily be placed in the context of meaning Accordingly the first volume of the book concerns this necessary context while the second volume will view translation in terms of the semantic framework presented in the first volume Both volumes are to a large extent consistent with major tenets of cognitive linguistics The work is addressed primarily to students pursuing translation studies but also to all those persons who are interested in semantics and translation for whatever other reasons The main aim of the book is to provide the prospective reader with a quantum of

knowledge in the two areas A subsidiary aim is to tidy up the metalinguistic terminology replete with such deficiencies as polysemy whereby one term is laden with a number of senses as well as synonymy due to which one sense is connected with more than one term **British Book News** British Council,1993 Includes no 53a British wartime books for young people
