Major and Serious Crime Investigations Richard Carr, Colin Davies, 2025-02-28 This text explores the concept of major and serious crime investigations as it takes the reader through the fundamental elements of investigative theory and practice that are relevant to this area of criminality Unlike other texts that concentrate on either bespoke areas of criminality such as homicide terrorism or trends in concepts such as county lines this book recognises that the reader will be new to investigative study with little practitioner experience to anchor their learning By using the latest evidence based policing knowledge and critical thinking it explores the concepts of major and serious crime detailing key areas of legislation and how investigative strategies and decision making can influence successful outcomes Other topics examined in this text is the key areas of risk for major and serious crime investigations the impact on investigators the concept of disclosure investigative interviewing and how civil orders designed to tackle this type of criminality can provide a successful alternative to prosecution Both students and practitioners can find this book useful with this book s contemporary approach of using case studies and contemporary investigative examples relevant to the topic This book brings together academic theory and operational understanding of major and serious crime that provides learners with an easy to follow guide that they can keep returning to throughout their career

National Audit Office - Criminal Justice System: Confiscation Orders - HC 738 Great Britain: National Audit Office, 2013-12-17 Government has no overall coherent strategy for confiscation orders and this fundamentally undermines the process for confiscating assets In 2012 13 673 000 offenders were convicted of a crime many of which had a financial element yet only 6 400 confiscation orders were set The annual amount of fraud perpetrated by criminals in England and Wales has been estimated by the National Fraud Authority as some 52 billion On this basis it has been further estimated that out of every 100 generated by the criminal economy 99 65 was kept by the perpetrators Without the government knowing what constitutes the overall success of its policy the bodies involved have no way of knowing which criminals or court cases should be prioritized for confiscation activity Action was not taken early enough in many cases and this together with out of date ICT systems data errors and poor joint working hampers the efficiency and effectiveness of enforcing confiscation orders Throughout the criminal justice system there is insufficient awareness of the proceeds of crime and its potential impact Confiscation orders have a low profile within law enforcement agencies with low awareness of financial legislation outside specialist teams This results in many cases not being considered for confiscation Owing to a lack of data and agreed success criteria it is impossible to make meaningful cost benefit assessments of the enforcement of different orders Where confiscation orders are made and not paid the main sanctions do not work The Courts and Tribunals Service found that in 2012 only two per cent of offenders paid in full once the sentence was imposed
