While millions of dollars may seem to grow on trees in this land of innovation tech's aggressive misogynistic work at all costs culture has shut women out of the greatest wealth creation in the history of the world Brotopia reveals how Silicon Valley got so sexist despite its utopian ideals why bro culture endures even as its companies claim the moral high ground and how women are speaking out and fighting back Drawing on her deep network of Silicon Valley insiders Chang opens the boardroom doors of male dominated venture capital firms like Kleiner Perkins the subject of Ellen Pao's high profile gender discrimination lawsuit and Sequoia where a partner once famously said they won't lower their standards just to hire women Exposing the flawed logic in common excuses for why tech has long suffered the pipeline problem and invests in the delusion of meritocracy Brotopia also shows how bias coded into AI internet troll culture and the reliance on pattern recognition harms not just women in tech but us all and at unprecedented scale
