Let us C Solutions 16th Edition kanetkar Yashavant, 2018-11-08 Let Us C has been part of learning and teaching material in most Engineering and Science Institutes round the country for years now From last year or so I received several suggestions that its size be pruned a bit as many learners who learn C language in their Engineering or Science curriculum have some familiarity with it I am happy to fulfill this request I hope the readers would appreciate the lean look of the current edition In one of the previous edition I had realigned the chapters in such a manner that if a C programming course is taught using Let Us C it can be finished in 22 lectures of one hour each with one chapter's contents devoted to one lecture I am happy that many readers liked this idea and reported that this has made their learning path trouble free A more rational reorganization of end of chapter exercises in the book has also been well received Riding on that feedback I had introduced one more feature in the fifteenth edition

KanNotes These are hand crafted notes on C programming From the reader's emails I gather that they have turned out to be very useful to help revise their concepts on the day before the examination viva voce or interview Many readers also told me that they have immensely benefitted from the inclusion of the chapter on Interview FAQs I have improved this chapter further The rationale behind this chapter is simple ultimately all the readers of Let Us C sooner or later end up in an interview room where they are required to take questions on C programming I now have a proof that this chapter has helped to make that journey smooth and fruitful All the programs present in the book and some more are available in source code form at www.kicit.com/books/letusc/sourcecode You are free to download them improve them change them do whatever with them If you wish to get solutions for the Exercises in the book they are available in another book titled Let Us C Solutions If you want some more problems for practice they are available in
