The Red Fog Over America William Guy Carr,1962 *Red Fog Over America* William Guy Carr,1996-01-01 *GEO Year Book 2006* , *Cannons and Codes* Alison L. LaCroix,Jonathan S. Masur,Martha Craven Nussbaum,Laura M. Weinrib,2021 This edited volume on war in law and literature addresses the many ways in which war affects human society and the many groups of people whose lives are affected by war The essays by preeminent scholars discuss the ways in which literary works can shed light on legal thinking about war and how a deep understanding of law can lead to interpretive insights on literary works Some concern the lives of soldiers others focus on civilians living in war zones who are caught up in the conflict still others address themselves to the home front far from the theatre of war By collecting such diverse perspectives with contributions from preeminent scholars of philosophy literature and law this volume aims to show how literature has reflected the totalizing nature of war and the ways in which it distorts law across domains [The Red Fog Over America. Third Edition, Etc](#) William Guy CARR,1962 *Dual-use Objects under International Humanitarian Law: Towards a Paradigm Shift* Francesca Capone,2025-05-29 This book deals with a crucial and yet under explored topic that has increasingly gained momentum during modern armed conflicts i e dual use objects under international humanitarian law IHL Dual use objects such as energy infrastructures water installations and civilian means of transportation and communication which could be used also for military purposes is a term that has entered the IHL jargon but has not attained the status of a legal concept Dual use objects are easily identifiable and yet remain difficult to pin down in particular when it comes to separating them from military objectives and determining the applicable rules to enhance their protection Although attacks against critical infrastructures are traditionally justified as being part of a legitimate military strategy experts and in some instances governments are uncomfortable with the idea of depriving the civilian population of services and goods essential to its survival Yet the sense of discomfort has not led to any significant improvement and dual use objects remain on the target lists of most belligerents A number of factors which this book analyses to explain the rise and rationale behind the current mainstream approach to dual use objects contributed to cementing the status quo The present book building on these premises pursues a twofold aim First this book seeks to fill a significant gap in the IHL scholarship in light of the limited attention that the topic has received so far Second this book aims to challenge the mainstream approach through a rigorous inquiry and the development of a new paradigm The paradigm shift which is at the heart of this study places under the spotlight the civilian function of dual use objects and reclaim the central role of the individual actors that plan order and execute attacks against these targets This book aspires to become an essential tool for academics and practitioners working in the IHL field but at the same time its readership is expected to include students at all levels that have an interest in the topic and seeks to approach it in an innovative way Francesca Capone is Associate Professor of International Law at the Institute DIRPOLIS of the Scuola Superiore Sant Anna in Pisa Italy **GEO Year Book** ,2006 Overview of major global and

regional environmental issues and development that shaped policy decisions and actions during the course of the year Emerging challenges new findings presenting scientific progress made in the year that may assist society in recognizing and better understanding emerging environmental issues and help decision makers in designing adequate responses GEO indicators highlighting some of the key global and regional environmental issues and trends that have been identified in GEO reports

One Earth, One Future National Academy of Sciences, Ruth S. DeFries, Cheryl Simon Silver, 1992-02-01 Written for nonscientists One Earth One Future can help individuals understand the basic science behind changes in the global environment and the resulting policy implications that the population of the entire planet must face The volume describes the earth as a unified system exploring the interactions between the atmosphere land and water and the snowballing impact that human activity is having on the system and presents perspectives on policies and programs that can both develop and protect our natural resources One Earth One Future discusses why such seemingly diverse issues as historical climate change species diversity and sea level rise are part of a single picture and how human activity is the critical element in that picture The book concludes with practical examinations of economic security and development questions with a view toward achieving improvements in quality of life without further environmental degradation One Earth One Future is must reading for anyone interested in the interrelationship of environmental matters and public policy issues

Bridge Builders Nathan Bomey, 2021-05-13 In these turbulent times defined by ideological chasms clashes over social justice and a pandemic intersecting with misinformation Americans seem hopelessly divided along fault lines of politics race religion class and culture Yet not everyone is accepting the status quo In Bridge Builders Bringing People Together in a Polarized Age journalist Nathan Bomey paints a forensic portrait of Americans who are spanning gaping divides between people of difference From clergy fighting racism in Charlottesville to a former Republican congressman engaging conservatives on climate change and Appalachian journalists restoring social trust with the public these countercultural leaders all believe in the power of forging lasting connections to bring about profound change Though the blueprints for political social and cultural bridges vary widely bridge builders have much in common and we have much to learn from them In this book Bomey dissects the transformational ways in which bridge builders are combatting polarization by pursuing reconciliation rejecting misinformation and rethinking the principle of compromise

A Practice of Ethics for Global Politics Jack L. Amoureux, 2015-10-05 What kind of ethics in world politics is possible if there is no foundation for moral knowledge or global reality is at least complex and contingent Furthermore how can an ethics grapple with difference a persistent and confounding feature for global politics This book responds to the call for a bold and creative approach to ethics that avoids assuming or aspiring to universality and instead prioritizes difference complexity and uncertainty by turning to reflexivity not as method or methodology but as a practice of ethics for politics This practice ethical reflexivity offers individuals organizations and communities tools to recognize interrogate and potentially change the stories they tell about politics about

constraints notions of responsibility and visions of desirability The benefits and limits of ethical reflexivity are investigated by the author who engages writing on critique rhetoric affect and relationality and carefully considers dominant and alternative framings of difficult issues in International Relations IR the 1994 genocide in Rwanda and the US policies of enhanced interrogation and drone strikes This path breaking study provokes new possibilities for agency and action and contributes to a growing literature in IR on reflexivity by uniquely elaborating its promise as an ethics for politics and by drawing on thinkers less utilized in discussions of reflexivity such as Hannah Arendt Michel Foucault and Aristotle This book will appeal to scholars and upper level graduates in several sub fields of IR including international global ethics IR theory global governance international organizations non governmental organizations foreign policy analysis and US foreign policy *The Wisconsin Agriculturist* ,1916 **Leslie's** ,1914 Biologic Markers of Air-Pollution Stress and Damage in Forests National Research Council,Division on Earth and Life Studies,Commission on Life Sciences,Committee on Biologic Markers of Air-Pollution Damage in Trees,1989-01-01 There is not much question that plants are sensitive to air pollution nor is there doubt that air pollution is affecting forests and agriculture worldwide In this book specific criteria and evaluated approaches to diagnose the effects of air pollution on trees and forests are examined American Fruit Grower ,1911 Ethics, Law and Natural Hazards Lauren Traczykowski,2021-03-08 This book argues that the international community has a moral duty to intervene on behalf of a population affected by a natural hazard when their government is either unable or unwilling to provide basic life saving assistance The work draws on law international relations theory and political philosophy to articulate that non response to a natural hazard is unethical In providing policy suggestions the author articulates what should happen based on an ethical analysis Readers will thus gain an ethical lens with which to view intervention in the aftermath of a natural hazard The book encourages readers to consider the nuances of arguments from various disciplines about whether or not intervention is appropriate Whilst arguing throughout that an intervention policy in response to natural hazards should be developed by the international community the study also accounts for why intervention should only be used in very limited situations This interdisciplinary approach makes the book essential reading for researchers academics and policy makers working in the areas of international law humanitarian studies human rights international relations and political science National Grange ,1908 *Book Review Index Cumulation* Dana Ferguson,2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year **Cumulated Index of the Christian Science Monitor** ,1968 Index to the Christian Science Monitor ,1966 *The Red Fog Over America*
