

The background features a detailed diagram of the TCP/IP architecture. At the top, it shows the interaction between the Operating System and the Network Interface Card (NIC). The data flow proceeds through the Link Layer, Network Layer, and Transport Layer, with a central box labeled 'TCP/IP Stack'. Below this, the 'Kernel Processing' section details the flow from the Network Interface Card through the Network Layer (IP) and Transport Layer (TCP/UDP) to the Network Interface Card again, which then sends data to the Physical Layer. The Physical Layer is shown as a series of bits being transmitted over a network.
