The Next Antitrust Agenda American Antitrust Institute,2008 The American Antitrust Institute AAI was founded in 1998 as an independent nonprofit education research and advocacy organization Celebrating its tenth anniversary during the important 2008 presidential campaign the AAI determined to utilize this year to generate an integrated vision for re energizing competition policy in the United States Ours is a vision that departs in substantial ways from the outlook that has driven competition policy for much of the past generation We offer it to the next administration without presupposition as to which party will control Congress or who the President will be Traditionally the ideal of competition as the preferred regulator of business behavior has enjoyed bipartisan support beginning with the introduction of the Sherman Act in 1890 by a Republican and its signing into law by a Republican But interpretations of what constitutes healthy competition and priorities for enforcement have varied over time sometimes dramatically Indeed there have been periods of war or depression when the ideal of competition has been eclipsed by other priorities and policies Yet time and again the ideal has been rejuvenated by both Republicans and Democrats We argue that we should now be entering a period of reinterpretation and rejuvenation This Report is the edited product of a set of committees formed in the fall of 2007 The committee chairs and participants are all members of the AAI s Advisory Board The Report consists of ten chapters and an introduction to competition policy and the philosophy behind the Report The first set of chapters examines substantive areas of antitrust law and economics including cartel enforcement monopolization merger policy and a relative newcomer to antitrust discourse buyer power The following chapters then offer prescriptions for building the institutions of public enforcement and restoring the legitimacy of private enforcement Finally the report concludes with four chapters devoted to several of the key economic sectors in which competition policy issues are currently important media food health and energy Together these sectors account for more than one third of the national economy
