## **The American Pageant 13th Edition Textbook Notes Chapter:**

The Confederate and Neo-Confederate Reader James W. Loewen, Edward H. Sebesta, 2011-01-05 Most Americans hold basic misconceptions about the Confederacy the Civil War and the actions of subsequent neo Confederates For example two thirds of Americans including most history teachers think the Confederate States seceded for states rights This error persists because most have never read the key documents about the Confederacy These documents have always been there When South Carolina seceded it published Declaration of the Immediate Causes Which Induce and Justify the Secession of South Carolina from the Federal Union The document actually opposes states rights Its authors argue that Northern states were ignoring the rights of slave owners as identified by Congress and in the Constitution Similarly Mississippi s Declaration of the Immediate Causes says Our position is thoroughly identified with the institution of slavery the greatest material interest of the world Later documents in this collection show how neo Confederates obfuscated this truth starting around 1890 The evidence also points to the centrality of race in neo Confederate thought even today and to the continuing importance of neo Confederate ideas in American political life The 150th anniversary of secession and civil war provides a moment for all Americans to read these documents properly set in context by award winning sociologist and historian James W Loewen and coeditor Edward H Sebesta to put in perspective the mythology of the Old South

**Catholics in the American Century** R. Scott Appleby, Kathleen Sprows Cummings, 2012-11-15 Over the course of the twentieth century Catholics who make up a quarter of the population of the United States made significant contributions to American culture politics and society They built powerful political machines in Chicago Boston and New York led influential labor unions created the largest private school system in the nation and established a vast network of hospitals orphanages and charitable organizations Yet in both scholarly and popular works of history the distinctive presence and agency of Catholics as Catholics is almost entirely absent In this book R Scott Appleby and Kathleen Sprows Cummings bring together American historians of race politics social theory labor and gender to address this lacuna detailing in cogent and wide ranging essays how Catholics negotiated gender relations raised children thought about war and peace navigated the workplace and the marketplace and imagined their place in the national myth of origins and ends A long overdue corrective Catholics in the American Century restores Catholicism to its rightful place in the American story

Judith P. Zinsser,1993 As one twentieth century historian described it the subject matter of history is always men in the midst of other men men in collectives and groups Simply put until the late 1960s women were not viewed as an integral part of the historical record The few who did appear had predictable roles as the mothers and daughters wives and mistresses of famous men Extraordinary figures like the queens of sixteenth century Europe or the nineteenth century reformers in the United States though praised for having taken on male roles still could not escape patronizing phrases and denigrating stereotypes Not only was history the study of man but the profession itself had a skewed definition The writing of history seemed a masculine prerogative the historian a gentleman scholar mediating between the past and the present In this first full length study of the impact of feminism on history Judith P Zinsser traces the ways in which self declared feminist scholars have worked since the early 1970s to present the other half of history They created a new field the study of women and a new perspective gender Zinsser vividly conjures up the heady excitement of the first women s history programs as well as the protracted struggles over access to and equal status in faculty departments scholarly publications and professional organizations such as the American Historical Association Feminist scholars have in fact forced the inclusion of women as fully participating members of the profession and the academy Zinsser also writes about feminist initiatives outside of colleges and universities She gives the first detailed account of the most influential of these grassroots initiatives the National Women s History Project In surveying the impact of all that has changed and all that has remained the same Zinsser concludes that for feminist historians it appears to be a question of a glass half full or a glass half empty      City Record Boston (Mass.),1918      American Book Publishing Record Cumulative, 1876-1949 R.R.
