

## **MODULE - 9 LECTURE NOTES - 4**

### **DECISION SUPPORT SYSTEMS**

#### **INTRODUCTION**

DSS is an interactive computer-based system to help decision makers use communications technologies, data, documents, knowledge and/or models to identify and solve problems, complete decision process tasks, and make decisions. Geographic Information Systems (GIS), Enterprise Information Systems (EIS), Expert Systems (ES), On-Line Analytical Processing (OLAP), software agents, knowledge discovery systems and group DSS can all be lumped into the category of systems we call as DSS.

#### **DSS FOR DECISION-MAKING**

##### Decision Preparation

- DSS environments provide data required as input to the decision-making process.
- This is what almost all data mart and data warehousing environments do today.

##### Decision structuring

- DSS environments provide tools and models for arranging the inputs in ways that make sense to frame the decision.
- These tools and models are not pivot tables and other aspects of data presentation found in query tools.
- They are actual decision-making tools, like fault tree analysis, Bayesian logic and model-based decision-making based on things like neural networks.

##### Context Development

- DSS environments again provide tools, and provide the mechanisms for capturing information about a decision's constituencies (who are affected by this decision), outcomes and their probabilities, and other elements of the larger decision-making context.

##### Decision-making

- DSS environments may automate all or part of the decision-making process and offer evaluations on the optimal decision.
- Expert systems and artificial intelligence environments can do this

##### Decision Propagation

- DSS environments take the information gathered about constituencies, dependencies, outcomes and drive elements of the decision into those constituencies for action.

# Module 9 Lecture Notes Decision Support Systems

## Introduction

**Christian Drosten**

## **Module 9 Lecture Notes Decision Support Systems Introduction:**

## Enjoying the Song of Phrase: An Psychological Symphony within **Module 9 Lecture Notes Decision Support Systems Introduction**

In a world taken by monitors and the ceaseless chatter of fast communication, the melodic beauty and emotional symphony created by the published word frequently diminish in to the background, eclipsed by the constant noise and disruptions that permeate our lives. Nevertheless, located within the pages of **Module 9 Lecture Notes Decision Support Systems Introduction** a wonderful literary treasure brimming with natural thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, that interesting masterpiece conducts readers on a psychological trip, skillfully unraveling the concealed melodies and profound affect resonating within each carefully constructed phrase. Within the depths of the poignant analysis, we shall examine the book is central harmonies, analyze its enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
