Making Sense of Change Management Esther Cameron, Mike Green, 2019-11-03 This definitive bestselling text in the field of change management provides comprehensive guidance of everything needed to successfully navigate times of change. Making Sense of Change Management provides a thorough and accessible overview for students and practitioners alike. Without relying on assumed knowledge, it comprehensively covers the theories and models of change management and connects them to workable approaches and techniques that organizations of all types and sizes can use to adapt to tough market conditions and succeed by changing their strategies, structures, mindsets, leadership behaviours, and expectations of staff and managers. This completely revised and updated fifth edition contains new chapters on digital transformation and becoming a sustainable business, new material on resilience, well-being, and effective leadership, and new examples from organizations including Google, Burberry, and Volvo. Supported by food for thought and stop and think features to aid critical thinking and understanding, as well as checklists, tips, and helpful summaries, Making Sense of Change Management remains essential reading for anyone who is currently part of or leading a change initiative. New and updated accompanying online resources include international case study question packs for lecturers and lecture slides with reflective questions.

Biomedical Engineering Applications for People with Disabilities and the Elderly in the COVID-19 Pandemic and Beyond Valentina Emilia Balas, Oana Geman, 2022-06-18 Biomedical Engineering Applications for People with Disabilities and the Elderly in the COVID-19 Pandemic and Beyond presents biomedical engineering applications used to manage people's disabilities and care for the elderly to improve their quality of life and extend life expectancy. This edited book covers all aspects of assistive technologies, including the Internet of Things (IoT), telemedicine, e-Health, smart sensors, robotics, devices for rehabilitation, and serious games. This book will prove useful for bioengineers, computer science undergraduate and postgraduate students, researchers, practitioners, biomedical engineering students, healthcare workers, and medical doctors. This volume introduces recent advances in biomaterials, sensors, cellular engineering, biomedical devices, nanotechnology, and biomechanics applied in caring for the elderly and people with disabilities. The unique focus of this book is on the needs of this user base during emergency and disaster situations. The content includes risk reduction, emergency planning, response, disaster recovery, and needs assessment. This book offers readers multiple perspectives on a wide range of topics from a variety of disciplines. This book answers two key questions: What challenges will the elderly and people with disabilities face during a pandemic? How can new or emerging advances in biomedical engineering help with these challenges? Includes coverage of smart protective care tools, disinfectants, sterilization equipment, and equipment for rapid and accurate COVID-19 diagnosis. Focuses on the limitations and challenges faced by the elderly and people with disabilities in pandemic situations, such as limitations on leaving their homes and having caregivers and family visit their homes. How can technology help? Discusses tools, platforms, and techniques for managing patients with COVID-19. **Innovation Pathways to**

Sustainability Michael Lester, Marie dela Rama, 2024-08-09 The book offers insights into reconciling innovation with sustainability and identifying key stakeholders responsible for the reconciliation Through conversations with experts in various fields the intersection of innovation sustainability governance and complex systems in a rapidly changing climate driven world is discussed Countries around the world face the urgent existential challenge to tackle climate change and CO2 emissions In its discussions of case studies of key economic sectors in Australia this book focuses on the emerging experience with harnessing innovation to sustainability The interdisciplinary approach to the complexity of climate change and policy making provides readers an opportunity for thoughtful discussions and lessons to be learnt from multiple angles This is a vital resource for scholars in climate studies innovation and sustainability that also confronts important challenges facing policymakers government and society [Developing Medical Apps and mHealth Interventions](#) Alan Davies, Julia

Mueller, 2020-07-13 This book provides a practically applicable guide to designing evidence based medical apps and mHealth interventions It features detailed guidance and case studies where applicable on the best practices and available techniques from both technological platform technologies toolkits sensors and research perspectives This approach enables the reader to develop a deep understanding of how to collect the appropriate data and work with users to build a user friendly app for their target audience Information on how researchers and designers can communicate their intentions with a variety of stakeholders including medical practitioners developers and researchers to ensure the best possible decisions are made during the development process to produce an app of optimal quality that also considers usability [Developing Medical Apps and mHealth Interventions](#) comprehensively covers the development of medical and health apps for researchers informaticians and physicians and is a valuable resource for the experienced professional and trainee seeking a text on how to develop user friendly medical apps **Management in the Age of Digital Business Complexity** Bill McKelvey, Renata

Kaminska, Maria Paz Salmador, Nadine Escoffier, 2021-09-07 **Management in the Age of Digital Business Complexity** focuses on how the digital age is changing management and vastly speeding up complexity dynamics The recent coevolution of technologies has dramatically changed in just a few years how people and firms learn communicate and behave Consequently the process of how firms coevolve and the speed at which they coevolve has been dramatically changed in the digital age and managerial methods are lagging way behind Combining his own expertise with that of a number of specialist and international co authors McKelvey conveys how companies that fall behind digitally can quickly be driven out of business The book has been created for academics seeking to upgrade management thinking into the modern digital age and vastly improve the change capabilities of firms facing digital oriented competition *Handbook of Protoctista* Lynn Margulis, 1990
