

The image features two European Union flags, each with twelve gold stars on a blue field, flying from a pole in front of a modern glass skyscraper. The building's facade is composed of numerous rectangular glass panels, reflecting the sky. The sky is a vibrant blue with scattered white clouds, and a bright sun is visible in the upper right corner, creating a lens flare effect. A semi-transparent, light-colored banner is overlaid across the center of the image, containing the text 'IDD - Insurance Distribution Directive' in a bold, white, sans-serif font.

## **Insurance Distribution Directive And Mifid 2 Implementation:**

**Insurance Distribution Directive** Pierpaolo Marano, Kyriaki Noussia, 2020-11-12 This open access volume of the AIDA Europe Research Series on Insurance Law and Regulation offers the first comprehensive legal and regulatory analysis of the Insurance Distribution Directive IDD. The IDD came into force on 1 October 2018 and regulates the distribution of insurance products in the EU. The book examines the main changes accompanying the IDD and analyses its impact on insurance distributors i.e. insurance intermediaries and insurance undertakings as well as the market. Drawing on interrelations between the rules of the Directive and other fields that are relevant to the distribution of insurance products it explores various topics related to the interpretation of the IDD e.g. the harmonization achieved under it its role as a benchmark for national legislators and its interplay with other regulations and sciences while also providing an empirical analysis of the standardised pre-contractual information document. Accordingly the book offers a wealth of valuable insights for academics regulators practitioners and students who are interested in issues concerning insurance distribution.

**Distribution of Insurance-Based Investment Products** Pierpaolo Marano, Ioannis Rokas, 2019-03-27 The book addresses a topic at the intersection of two heavily regulated sectors insurance and investment services. Until recently scholars and professionals have approached insurance and investment services as two separate categories in the financial services sector and as being governed by separate regulatory frameworks. In practice however the boundaries were and are blurred a reality that regulators have begun to recognize and address in their more recent regulatory texts. The first part of the book approaches the new standards applicable to investment products based on insurance insurance based investment products IBIPs. These rules are harmonized across the EU. The rationale behind this new definition is provided together with a description of these products limitations. The analysis addresses the new rules and explores the legal regime and relevant standards applicable to IBIPs. The organizational rules concerning the design and distribution of IBIPs are also examined and the book highlights e.g. how these rules are inspired by the principles of conduct. In closing the ADR systems are analysed in order to ascertain whether or not they can offer an effective tool for settling disputes over these products. In turn the second part focuses on the liability for distribution of IBIPs which ranks as one of the most conspicuous and relatively new legal phenomena but at the same time represents an exceptionally important field of civil liability in today's world. Liability is still regulated at the national level. Thus the four largest life insurance markets in the EU are considered along with the largest emerging market for life insurance. The chapters on national laws also consider whether and if so how the new harmonized rules on IBIPs are being combined with those already in force in the jurisdictions considered. The goal is to determine whether the new rules are likely to change the doctrine and case law approach to these products or whether the European legislators' choices have no real impact on the protection of clients.

**European Financial Regulation** Veerle Colaert, Danny Busch, Thomas Incalza, 2019-12-26 Mirroring the long established structure of the financial industry EU financial regulation as we know it

today approaches banking insurance and investment services separately and often divergently In recent decades however the clear separation between financial sectors has gradually evaporated as business lines have converged across sectors and FinTech solutions have emerged which do not fit traditional sector boundaries As the contours of the traditional tripartition in the financial industry have faded the diverging regulatory and supervisory treatment of these sectors has become increasingly at odds with economic reality This book brings together insights developed by distinguished researchers and industry professionals in a series of articles analysing the main areas of EU financial regulation from a cross sectoral perspective For each specific research theme including prudential regulation corporate governance and conduct of business rules the similarities as well as gaps overlaps and unjustifiable differences between banking securities and insurance regulation are clearly presented and discussed This innovative research approach is aimed at informing lawmakers and policymakers on potential improvements to EU financial regulation whilst also supporting legal and compliance professionals applying the current framework or looking to streamline compliance processes

**EU Law of Economic & Monetary Union** Fabian Amttenbrink, Christoph Herrmann, 2020-05-21 Presenting a sweeping analysis of the legal foundations institutions and substantive legal issues in EU monetary integration The EU Law of Economic and Monetary Union serves as an authoritative reference on the legal framework of European economic and monetary union The book opens by setting out the broader contexts for the European project historical economic political and regarding the international framework It goes on to examine the constitutional architecture of EMU the main institutions and their legal powers the core legal provisions of monetary and economic union and the relationship of EMU with EU financial market and banking regulation The concluding section analyses the current EMU crisis and the main avenues of future reform

*The Influence of the Insurance Distribution Directive (IDD) on the German Insurance Market* Philipp Haye, 2018 This thesis analyzes the effect of the Insurance Distribution Directive IDD on the German insurance market This EU directive was initiated to increase customer protection by creating a framework that better aligns the interest and incentives of consumers insurers and insurance intermediaries Especially in Germany the IDD was viewed as an impulse to move the insurance intermediation market from the currently dominant compensation based remuneration system towards a fee for advice system However the analysis shows that the result of the German implementation of the IDD is rather soft and will not lead to a major strengthening of the fee for advice system A thorough literature review and an analysis on the effects of stronger regulations in other EU member states prior to the introduction of the IDD lead to the conclusion that a fee for advice system is generally not superior to the compensation based system and therefore the decision of the German legislator to not considerably restrict insurance intermediaries with respect to their remuneration seems reasonable from the author s point of view

Transparency in Insurance Regulation and Supervisory Law Pierpaolo Marano, Kyriaki Noussia, 2021-03-30 This volume focuses on transparency as the guiding principle for insurance regulation and supervisory law All chapters were written by experts in their respective fields who address transparency in a wide range of European and non European jurisdictions Each chapter reviews the transparency principles applicable in the jurisdiction discussed While the European jurisdictions reflect different facets of the principle as emerging from EU law on insurance the principle has developed quite differently in other jurisdictions

MiFID II in Relation to Other Investor Protection Regulation Veerle Colaert, 2019 The study of the interaction between different pieces of EU financial legislation becomes ever more important and difficult In this contribution the author explores the relationship between MiFID II and other recent EU legislation aiming at investor protection such as the Insurance Distribution Directive the PRIIPs Regulation and the UCITS Directive The analysis reveals numerous inconsistencies and interpretation difficulties The author argues that while some of the shortcomings are inherent to the EU piecemeal approach other problems should and could have been avoided by adopting a holistic approach of financial regulation and supervision
