MULTIPLE CHOICE

1. Which of the following best describes *community-based nursing*?
 - a. A practice in which care is provided for individuals and families
 - b. Providing care with a focus on the group's needs
 - c. Giving care with a focus on the aggregate's needs
 - d. A value system in which all clients receive optimal care

ANS: A

By definition, community-based nursing is a setting-specific practice in which care is provided for —sickl individuals and families where they live, work, and attend school. The emphasis is on acute and chronic care and the provision of comprehensive, coordinated, and continuous care. These nurses may be generalists or specialists in maternal–infant, pediatric, adult, or psychiatric mental health nursing. Community-based nursing emphasizes acute and chronic care to individuals and families, rather than focusing on groups, aggregates, or

Development in Infancy Martha E. Arterberry, Marc H. Bornstein, 2013-07-18 This topically organized text provides a comprehensive overview of infant development with a strong theoretical and research base Readers gain a clear understanding of infant development and issues that will be the focus of significant advances in infancy studies in the future The new fifth edition

reflects the enormous changes in the field that have occurred over the past decade. The thoroughly revised chapters emphasize work from the 21st century although classic references are retained and explore contextual, methodological, neurological, physical, perceptual, cognitive, communicative, emotional, and social facets of infant development. The fifth edition features a more accessible style and enhanced pedagogical and teaching resource program. This extensively revised edition features a number of changes. The fifth edition adds a new co-author, Martha Arterberry, who brings additional teaching and research skills to the existing author team. An enhanced pedagogical program features orienting questions at the beginning of each chapter and boldfaced key terms listed at the end of the chapter and defined in the glossary to help facilitate understanding and learning. Two new boxes in each chapter, *Science in Translation* and *Set for Life*, illustrate applied issues and highlight the significance of infancy for later development. Increased emphasis on practical applications and social policy. More graphs, tables, and photos that explain important concepts and findings. Literature reviews are thoroughly updated and reflect contemporary research. All new teaching web resources. Instructors will find Power Points, electronic versions of the text, figures, and a test bank, and students will find hyperlinked references and electronic versions of the key concepts and definitions. Intended for beginning graduate or advanced undergraduate courses on infant and toddler development or infancy or early child development, taught in departments of psychology, human development, family studies, education, nursing, social work, and anthropology, this book also appeals to social service providers, policy makers, and clergy who work with community institutions. Prerequisites include introductory courses on child development and general psychology.
