comprehensive look at the educational scope of life and values that characterize 21st century Asia as well as those values

contexts in which Asian societies find themselves Exploring these values of different types and the way they are constructed
in Eastern and Western contexts the contributors delve into the diversity of religious moral and social education to promote

greater understanding across cultures While a range of values is identified here there is no single set of values that can be applied to all people in all contexts The time has long gone even for single societies when values can be imposed Yet this Handbook emphasizes both the extent and importance of values to individuals and their societies how they respond to these values may provide the key to better and more caring societies and to better lives for all Academics and teachers will find this Handbook resourceful because it raises important theoretical issues related to social values and their formation in distinctive contexts and provides novel insights into the diverse educational landscape in Asia Policymakers and educators will also find this text helpful in learning to think about new ways to improve the quality of people s lives *The Publishers Weekly* ,1923 **The Publisher** ,1910 School Government Chronicle and Education Authorities' Gazette ,1907 **British Books** ,1910
