Simulation The Practice Of Model Development And Use:

Simulation Stewart Robinson,2004 Simulation modelling involves the development of models that imitate real world operations and statistical analysis of their performance with a view to improving efficiency and effectiveness This non technical textbook is focused towards the needs of business engineering and computer science students and concentrates on discrete event simulations as it is used in operations management Stewart Robinson of Warwick Business School offers guidance through the key stages in a simulation project in terms of both the technical requirements and the project management issues surrounding it Readers will emerge able to develop appropriate valid conceptual models perform simulation experiments analyse the results and draw insightful conclusions *Handbook of Dynamic System Modeling* Paul A. Fishwick,2007-06-01 The topic of dynamic models tends to be splintered across various disciplines making it difficult to uniformly study the subject Moreover the models have a variety of representations from traditional mathematical notations to diagrammatic and immersive depictions Collecting all of these expressions of dynamic models the Handbook of Dynamic Sy
