Impact of Financial Technology (FinTech) on Islamic Finance and Financial Stability Naifar, Nader, 2019-09-27 With advancing technologies like distributed ledgers smart contracts and digital payment platforms financial services must be innovative in order to remain relevant in the modern era The adoption of financial technology affects the whole Islamic financial industry as well as the economic stability of a globalized world There is a need for research that seeks to understand financial technology and the regulatory technology necessary to ensure financial security and stability Impact of Financial Technology FinTech on Islamic Finance and Financial Stability is an essential publication that examines both the theory and application of newly available financial services and discusses the impact of FinTech on the Islamic financial service industry Featuring research on topics such as cryptocurrency peer to peer transferring and digital wallets this book is ideally designed for researchers bank managers economists analysts market professionals managers executives computer scientists business practitioners academicians and students seeking coverage on how the latest in artificial intelligence machine learning and blockchain technology will redesign Islamic finance **Crowdfunding** Douglas J. Cumming, Sofia A. Johan, 2019-12-05 Crowdfunding Fundamental Cases Facts and Insights presents fundamental knowledge about a maturing economic field Assembling and arranging datasets case analyses and other foundational materials on subjects associated with crowdfunding it systematically comprehensively and authoritatively provides access to a consistent body of crowdfunding research With the crowdfunding industry now consolidated this core reference can serve as the basis for research projects and applied work Acclaim for Crowdfunding This book provides insightful cases and statistics from around the world on how rewards and equity crowdfunding markets work It also includes useful information on marketplace lending It is a great resource for entrepreneurs and investors as well as for policymakers academics and students Craig Asano Founder and CEO National Crowdfunding and Fintech Association Crowdfunding offers detailed analyses of rewards and equity crowdfunding markets using statistical methods and case studies I recommend it for academics practitioners and policymakers who seek a rigorous look at crowdfunding markets around the world Jay Ritter Joseph B Cordell Eminent Scholar Chair Warrington College of Business University of Florida Presents a complete scope of crowdfunding areas in the international landscape Combines economics with international business management law and finance Enables practitioners and researchers to compare regulatory frameworks best practices and market opportunities Includes a freely available website of supplementary pedagogical material Regulating the Crypto Economy Iris H-Y Chiu, 2021-10-21 This book focuses on the building of a crypto economy as an alternative economic space and discusses how the crypto economy should be governed The crypto economy is examined in its productive and financialised aspects in order to distil the need for governance in this economic space The author argues that it is imperative for regulatory policy to develop the economic governance of the blockchain based business model in order to facilitate economic mobilisation and wealth creation The

regulatory framework should cater for a new and unique enterprise organisational law and the fund raising and financing of blockchain based development projects Such a regulatory framework is crucially enabling in nature and consistent with the tenets of regulatory capitalism Further the book acknowledges the rising importance of private monetary orders in the crypto economy and native payment systems that do not rely on conventional institutions for value transfer A regulatory blueprint is proposed for governing such monetary orders as commons governance The rise of Decentralised Finance and other financial innovations in the crypto economy are also discussed and the book suggests a framework for regulatory consideration in this dynamic landscape in order to meet a balance of public interest objectives and private interests By setting out a reform agenda in relation to economic and financial governance in the crypto economy this forward looking work argues for the extension of regulatory capitalism to this perceived wild west of an alternative economic space It advances the message that an innovative regulatory agenda is needed to account for the economically disruptive and technologically transformative developments brought about by the crypto economy

Regulation and Regulators after Global Financial Crises Aleksandra Jordanoska,2024-12-31 This book provides an original theoretically and empirically grounded analysis of regulatory enforcement activism in post crisis periods and the ensuing regulatory interactions It critically addresses the more regulation enforcement agenda relating to financial misconduct in the aftermath of the 2008 financial crisis showing how misconduct was constructed through the enforcement policies and practices of the powerful UK financial conduct regulator and its interactions with the subjects of enforcement proceedings and their legal representatives during a tumultuous time in the financial markets Drawing from interviews with regulators professional intermediaries and markets participants documentary analysis of enforcement decisions and speeches and observations the volume adopts an interdisciplinary approach grounded in social constructivist perspectives on compliance and deviance regulation theory and socio legal research Through a multi dimensional analytical framework of regulatory enforcement activism that links shifts in regulatory policymaking experimentations with legal powers in information gathering legal and extra legal penalties and individual accountability and the use of enforcement tools in micro level interactions the book documents a more interventionist and punitive post crisis enforcement agenda The findings challenge current thinking in the scandal and reform literature The work argues that despite the increased focus on enforcement it is not necessarily the case that the power has tilted more towards the regulator This fine grained socio legal enquiry makes innovative and timely theoretical contributions to our understanding of the limitations of regulatory activism and regulatory control regulatory relationships the governance of financial markets and broader thinking on regulating corporations and the individuals within them It will appeal to academics researchers regulators and policymakers working in regulation across law criminology sociology and politics
