Coyner describes the important aspects of personal preparation and describes the major kinds of riding gear and how they work to control body temperature and moisture. As motorcycle technology has evolved, so have aftermarket accessories which are made to address virtually every special need. Coyner shows you step by step how electrical modifications can be made and provides specific sections on high performance lighting and conspicuity, GPS, and other cockpit instruments, entertainment, and communication devices, cameras, and camcorders, ergonomic enhancements, suspension improvements, luggage, and storage additions, and trailers.
