Culture, Experience, Care: Re-Centring the Patient Eric Sandberg, Maren Scheurer, 2019-01-04 This volume was first published by Interdisciplinary Press in 2014. Susan Sontag claimed that everyone who is born holds dual citizenship in the kingdom of the well and the kingdom of the sick, and while we all prefer to use only the good passport sooner or later, each of us is obliged at least for a spell to identify ourselves as citizens of that other place. We are all, in other words, past, present, or future patients. This collection examines the many ways in which the idea of the patient can be conceptualized in different cultural, professional, intellectual, and emotional contexts as part of an ongoing multidisciplinary and international attempt by scholars, health care professionals, and indeed patients themselves to rethink and re-examine patienthood and patient care. These chapters attempt to put the patient at the centre, not just although, clearly, not least, at the centre of the processes, institutions, and ideologies of medical care, but of a wide range of intellectual and social practices.

Debating Health Care Ethics, Third Edition Doran Smolkin, Patrick Findler, Warren Bourgeois, 2025-04-28 Debating Health Care Ethics, Third Edition explores contemporary moral challenges in health care through a unique debate format, providing students with the essential tools to understand and critically evaluate the leading arguments in the field and to develop their own arguments on important moral problems in health care. The first three chapters explore the nature of arguments, philosophical methodology, and a range of leading normative ethical theories. The remaining chapters introduce students to moral problems in health care through dramas that feature complex scenarios involving patients, family members, and health care providers. Each drama is followed by a lively debate where the authors consider and evaluate rival arguments concerning the moral issues.

raised by the drama The dramas encourage students to start thinking about ethical issues in health care The debates then demonstrate how arguments are developed and criticized These debates also encourage students to develop and defend their own arguments on these topics This technique is more interactive and approachable than standard philosophical texts This third edition contains updated chapters and dramas that reflect recent changes in health care in Canada One such change is to the chapter on euthanasia which now includes a drama and a debate centred on the morality of legalizing Medical Assistance in Dying MAiD Other changes to the text are in response to the Covid 19 pandemic These include updated chapters on the proper rules for prioritizing care in emergency situations triage and the moral limits of medical doctors administering unproven alternative medications to patients who request them The third edition also contains a drama and debate on autonomy and valid consent and a drama and updated debate on the justice of a two tier health care system where one level of health care is available to all regardless of means and another level of faster health care is available only to those with means
