Carating,Raymundo G. Galanta,Clarita D. Bacatio,2014-04-23 The first soil survey in the Philippines was done by Mr Clarence Dorsey an American soil scientist in the province of Batangas in 1903 The Soils of the Philippines however is the first comprehensive summary of more than a century of soil survey work in this country It integrates the soil concepts of the reconnaissance soil survey results which commenced as early as 1934 and continued until the mid 1960s with the semi detailed soil surveys that continue to this day The result is the first ever genetic key for classifying Philippine soils at soil series level thus making it possible for any newcomers to the soil survey field to confidently produce their own soil map at a more detailed map scale to suit the project requirements This book brings together discussions on soils and soil mapping units and up to date international techniques and technologies It makes soils relevant to current political realities and national issues As soil survey moves from a reductionist agricultural development planning tool to a more holistic and integrated approach to enable us to understand our dynamic and complex environment The Soils of the Philippines will be the only source of authoritative and updated data on soil resources for macro level resource management planning for decades to come With a vanishing breed of experienced soil surveyors not only in the Philippines but also worldwide it may remain the only book on Philippine soils for the next hundred years or more Since soils follow a geological and not a human time frame the contents of this volume will stay relevant for soil surveyors even in a fast changing world As the country leaps from an agricultural economy towards modernization and a more diversified economic base some of the soil series in the Philippines for example the Guadalupe series underlying the skyscrapers of Makati City are becoming extinct as a result of

urban development Therefore this book serves as the repository for the soils that we possess the soils that have been lost through decades of urbanization while at the same time it creates a soil classification system for the soils we are yet to discover   The Role of Education in Promoting a Democratic Society in Nigeria Gabriel Terwase Ngbea,2008   **Wikipedia as Collective Action** Benjamin Keith Johnson,2007   Knowledge Communities Javier Echeverría,Andoni Alonso,Pedro J.
