High-Density Housing Christian Schittich, 2012-12-17 In view of the growing number of diverse life styles the search for flexible adaptable floor plans has become a fundamental issue in residential building That the continued demand in urban centres can only be responsibly satisfied by high density housing is undisputed More than ever before building high density housing is a diverse and challenging task for planners and architects This book presents international projects which document the complexity of the task from the design of the floor plans the development and use of resources to the use of economically beneficial building systems The high quality of the architecture and construction in such residential areas can be clearly seen in the uniform illustrations of the floor plans and large scale drawings of details The introductory contributions discuss extensively the topic of floor plan design and development This book is a comprehensive review of the current state of residential building the perspectives and future developments

Sustainable Energy Landscapes Sven Stremke, Andy van den Dobbelsteen, 2012-09-12 In the near future the appearance and spatial organization of urban and rural landscapes will be strongly influenced by the generation of renewable energy One of the critical tasks will be the re integration of these sustainable energy landscapes into the existing environment which people value and want to preserve in a socially fair environmenta

The Urbanisation of the Sea Nancy Couling, Carola Hein, 2020-12-02 The book tells the story of the sea land continuum based on the case of the North Sea one of the world s most industrialised seas in which the Netherlands plays a central role The space of the North Sea is almost fully planned and has been loaded with the task of increased economic production from new and traditional maritime sectors At the same time it has been emptied of cultural signi ficance Through diverse projects from academia art literature and practice from analysis to design the book explores synergies for designing this new spatial realm Port city expert Carola Hein professor of the history of architecture urban planning at Delft University of Technology and Nancy Couling associate professor at the Bergen School of Architecture and researcher of the urbanised sea combine forces with interdisciplinary experts to guide the reader through this complex and fascinating topic
