Macao's Church of Saint Paul Cesar Guillen-Nuñez, 2009-01-01 Macao's Ruins of St Paul correct name Church of Madre de Deus is the only example of Baroque art and architecture in China This beautifully illustrated book explores anew the now vanished but once renowned Church as well as the Jesuit university college of which it was part Both Church and College were destroyed by fire in 1835 From the perspective of the history of art they have remained poorly explored The author remedies this by imaginatively reconstructing their ground plans architecture and decoration in the light of new information in original documents that he has found in archives and libraries in Europe and Macao In his re-creation of the buildings he illustrates and draws on the evidence of selected Jesuit buildings in Italy Portugal Spain and Portuguese India and considers the historical Counter Reformation environment that eventually led to the College of Madre de Deus in China The most recent art historical findings on the Mannerist and Baroque art of the Jesuits in Europe and Iberian colonies are also taken into account The author who first identified the surviving facade of the Church as a retablo facade an unusual type of Iberian and Latin American church facade resembling an altarpiece brings his argument to its logical conclusion by relating it to the Church's plan and decoration An extremely important aspect of the art promoted by the Jesuits centring on the cult of passive martyrdom is also candidly discussed This book will enable the general public to better appreciate the Ruins and provides much of interest and value to scholars students architects art museums and cultural organizations

The Jesuits John W. O'Malley,Gauvin Alexander Bailey,Steven J. Harris,T. Frank Kennedy,2016-01-28 In recent years scholars in a range of disciplines have begun to re evaluate the history of the Society of Jesus Approaching the subject with new
