Policy Innovation in State Government David C. Nice,1994 Although it sometimes seems that governmental policies rarely change American state governments do adopt innovations This study considers why the states try new approaches to policy problems It analyzes innovations from campaign financing and sunset

laws to public transportation and regulating sexual behavior seeking to determine what forces produce policy changes Policy Innovation in State Government the result of studies considering individual innovations is an effort to make sense of a striking finding State characteristics that largely accounted for some changes were of no value in accounting for others Nice proposes a general theory based on a state's problem environment resources and orientation to government power This is a book that examines an important question offers an interesting theory and makes a reasonable effort to test it It will be valuable for those interested in state government public policy making intergovernmental relations and public administration

Innovation in the Public Sector Richard L. Merritt, Anna J. Merritt, 1985 The essays in this volume begin with the assumption that successful governments must be able to innovate Defined here as the introduction of a new idea method or device innovation encompasses several steps identifying the problem developing solutions enlisting the support of various non governmental groups and implementing the new idea The authors focus on the process of innovation in the hope of learning how information and knowledge can be made more useful to public policy makers who innovate

Innovation in the Public Sector, 2017 The public sector looms large economically both as a regulator of private economic activity and as a producer and consumer in its own right The rewards to innovation in the public sector can be huge but the obstacles can be formidable In this book policy makers and scholars from eight countries and two international organisations offer their unique insights on where the challenges lie and how they can be overcome This publication is part of an ongoing series highlighting some of the results of the UNECE Subprogramme on Economic Cooperation and Integration The objective of the Subprogramme is to promote a policy financial and regulatory environment conducive to economic growth knowledge base development and higher competitiveness in the UNECE region Back cover
