

STAR

job interview example

An example of the STAR methodology for job interviews

"While preparing an innovative piece for my school newspaper on the topic of the country's carbon footprint, I was faced with a number of problems that put the completion of the article in jeopardy (SITUATION). One of the key problems I faced was an inability to communicate with key sources remotely. (TASK)

To resolve this, I travelled to over eight cities across the country. Although this cost me significant money, time and personal resources, I managed to meet with members of government in these cities and gain key information for the article. (ACTION).

Upon publication of the article, which challenged a lack of environmental awareness in the education sector, I was successful in contributing to the pressuring of key-decision makers. Subsequently, initiatives were implemented to reduce the industry's carbon footprint and the negative impact on the environment (RESULT)."
