Creating a cyber security roadmap is essential for organisations to proactively address security threats and vulnerabilities. A cyber security roadmap serves as a strategic plan that aligns security efforts with organisational goals, helps organisations identify and mitigate risks, and ensures compliance with relevant regulations. It is a proactive approach and strategic plan that helps organisations to address cyber security threats, and this will benefit the organisation's financial stability, reputation, and long-term success. It is a fundamental component of an organisation's overall risk management strategy and contributes to its financial stability, reputation, and long-term success. Creating a cyber security roadmap for an organisation is a strategic process that involves several key steps. Addressing these challenges requires a combination of strategic planning, ongoing vigilance, investment in cyber security, and a commitment to cyber security best practices. Collaboration with experts both within and outside the organisation can also help navigate these challenges effectively. By keeping the key basic concepts in mind, you can develop a comprehensive and effective cybersecurity roadmap that helps protect your organisation against an ever-evolving threat landscape. By following a structured approach, cyber security, your organisation can maintain accurate records, demonstrate compliance, improve your cyber security stance, and effectively manage security-related activities and changes. Remember that cyber security is an ongoing process. Regularly review and update your roadmap to stay ahead of emerging threats and evolving security requirements. Collaboration between IT security teams and senior management is crucial to the success of your cyber security roadmap. There is a convincing need to adapt as the threat landscape evolves and the organisation's needs change. Organisations must allocate resources to bolster cybersecurity measures and establish robust incident response strategies to mitigate these risks and reduce the potential harm resulting from cybercrimes. Even highly skilled technology firms can fall victim to cyberattacks. Organisations bear a responsibility to ensure the highest level of cybersecurity for their systems and data, as well as to demonstrate their commitment to these efforts.

Cyber Strategy Carol A. Siegel, Mark Sweeney, 2020-03-23. Cyber Strategy: Risk-Driven Security and Resiliency provides a process and roadmap for any company to develop its unified Cybersecurity and Cyber Resiliency strategies. It demonstrates a methodology for companies to combine their disassociated efforts into one corporate plan with buy-in from senior management that will efficiently utilize resources, target high-risk threats, and evaluate risk assessment methodologies and the efficacy of resultant risk mitigations. The book discusses all the steps required from conception of the plan from preplanning, mission, vision, principles, strategic objectives, new initiatives, derivation, project management, directives, cyber threat and vulnerability analysis, cyber risk and controls assessment, to reporting and measurement techniques for plan success and overall strategic plan performance. In addition, a methodology is presented to aid in new initiative selection for the following year by identifying all relevant inputs. Tools utilized include Key Risk Indicators (KRI) and Key Performance Indicators (KPI). National Institute of Standards and Technology (NIST) Cyber Security Framework (CSF) Target State Maturity

interval mapping per initiative Comparisons of current and target state business goals and critical success factors A quantitative NIST based risk assessment of initiative technology components Responsible Accountable Consulted Informed RACI diagrams for Cyber Steering Committee tasks and Governance Boards approval processes Swimlanes timelines data flow diagrams inputs resources outputs progress report templates and Gantt charts for project management The last chapter provides downloadable checklists tables data flow diagrams figures and assessment tools to help develop your company s cybersecurity and cyber resiliency strategic plan
