Outfoxed Alexandra Kitty, 2005-04-01 The director of 2004's smash hit documentary *Outfoxed* Rupert Murdoch's War on Journalism teams with journalist Alexandra Kitty in an even more detailed and updated examination of how media empires led by Rupert Murdoch's Fox News have been running a race to the bottom in television news They examine media consolidation by focusing on the Fox News Channel How did Fox gain prominence How did the Fox News Channel gain audiences and influence public debate How does Fox report reality Is the network merely interpreting events or is it pushing propaganda Who are the main players and how do they treat their friends and enemies Why should readers care about how Fox takes liberties with its facts Each chapter blends interviews from Greenwald's

R for Finite Element Analyses of Size-dependent Microscale Structures Khameel B. Mustapha,2019-03-21 This book addresses the static and dynamic analysis of linear elastic size dependent structures based on the modified couple stress theory It focuses on establishing the governing equations of the size dependent structures deriving the associated finite element models and implementing those models using the R programming language The implemented functions are employed to develop a special R package equivalent to a MATLAB toolbox called microfiniteR for this book In each chapter the governing equations are formulated using the variational method and the behaviour of the structures is examined on the basis of their load deformation characteristics in the case of static analyses and by evaluating their eigenvalues in the case of dynamics and buckling problems The first chapter introduces readers to the R programming language beginning with the resources needed to make use of the language and ending with a list of recommended texts The remaining chapters cover the requisite linear elastic theory and highlight the implemented R functions Each chapter concludes with a brief summary and relevant references
