

# FORENSIC HANDWRITING ANALYSIS VS. GRAPHOLOGY

Will you loan me \$10.00?  
 I write with a right slant  
 my head raises my head, sure  
 I'll loan you \$10.00

I write with a vertical slant  
 my head raises my head. I'll  
 have to think it over.

I write with a left slant  
 I don't care if you need it  
 I have problems of my own.

I'm all mixed up I don't  
 know what to do.

- Graphology is the pseudoscientific study and analysis of handwriting, especially in relation to human psychology. The graphologist looks at a sample of a person's handwriting and uses it to diagnose a number of personality traits.
- Forensic handwriting analysis, on the other hand, is the scientific comparison of a known sample of a person's handwriting to an unknown sample. If possible, the experts use several known examples for the comparison.
