Mango,Doula Mouriki,1978 **Mosaics of Istanbul** Fatih Cimok,2010 *Saints and Spectacle* Carolyn L. Connor,2016-03-01 *Saints and Spectacle* explains for the first time how the spectacular gold ground mosaics of the Middle Byzantine period were likely conceived Through a recreation of the circumstances of this time *Saints and Spectacle* brings the Middle Byzantine church to life as the witness to a compelling and fascinating drama Mosaics of Hagia Sophia, Istanbul Natalia Teteriatnikov,Dumbarton Oaks,1998 The Archaeology of Byzantine Anatolia Philipp Niewohner,2017-03-17 The volume propounds a new understanding of the hitherto enigmatic medievalization of the Roman empire provides English presentations of foreign language research and promises to serve as an essential compendium that may help to establish Anatolian archaeology more widely in academic curricula worldwide Karia and the Dodekanese Birte Poulsen,Poul Pedersen,John Lund,2021-01-21 *Karia and the Dodekanese Vol II* presents new research that highlights cultural interrelations and connectivity in the Southeast Aegean and western Asia Minor over a period of more than 700 years Throughout antiquity this region was a dynamic meeting place for eastern and western civilizations Modern geographical limitations have been influential on both archaeological investigations and how we approach cultural relations in the region Comprehensive and valuable research has been carried out on many individual sites in Karia and the Dodekanese but the results have rarely been brought together in an attempt to paint a larger picture of the culture of this region In antiquity the sea did not constitute an obstacle to interaction between societies and cultures but was an effective means of communication for the exchange of goods sculptural styles architectural form and embellishment education and ideas It is clear that close relations existed between the Dodekanese and western Asia Minor during the Classical period Vol I but these relations were evidently further strengthened under the shifting political influences of the Hellenistic kings the Roman Empire and the cosmopolitan late antique period The contributions in this volume comprise investigations on urbanism architectural form and embellishment sculpture pottery and epigraphy Byzantine Mosaics Nano Chatzidakis,1994 With the luxury of their materials technical precision beauty and aesthetic grandeur Byzantine mosaics particularly the wall mosaics constitute the most impressive manifestation of Byzantine

monumental painting Highly expensive and laborious works of art they were commissioned and dedicated by emperors dignitaries state officials and members of the Church hierarchy in order to enhance the dwellings of Divinity important churches and monasteries and at the same time to manifest the power glory and legendary wealth of His earthly representatives A brilliant selection of mosaics from twenty five famous monuments are presented here by Nano Chatzidakis Professor of Byzantine Art and Archaeology at the University of Ioannina In historical and stylistic terms they cover the development of mosaic art from the 5th to the 14th century which is described and analysed efficiently by the author in the first part of the volume The unique pictorial character and special artistic importance of each individual mosaic ensemble presented in this volume is superbly illustrated and emerges strikingly through a full discussion of the stylistic and aesthetic physiognomy of the mosaics it comprises and a brief reference to the monument it adorns
