Quality and Risk Management in the IVF Laboratory Sharon T. Mortimer, David Mortimer, 2015-03-02 Public concern over high profile mistakes in IVF clinics and the concomitant increase in governmental regulation have given rise to widespread recognition of the need for accreditation of IVF clinics Modern accreditation schemes are largely based on the principles of ISO 9001 and related standards at the heart of which lies the expectation of a formal quality management system Risk analysis and risk minimization are also being demanded of IVF clinics but many only have limited understanding of how to approach these essential management tasks This book brings together the basics of quality management and risk management focussing on prophylactic management prevention rather than cure Each chapter in this new edition is fully updated and extended to include new material such as quality and risk management in the ART clinic and an illustrative example of a well run clinic This is the essential guide for clinicians and IVF laboratory staff

XIIIth International Symposium on Spermatology Lars Björndahl, John Flanagan, Rebecka Holmberg, Ulrik Kvist, 2021-07-22 These proceedings of the 2018 XIII International Symposium on Spermatology focus on comparative biology and encourages discussion and the exchange of ideas The aim of this Symposium was to provide a unique opportunity and bring together scientists from a wide spectrum of research fields human domestic animals and other mammals vertebrates insects and plants The underlying focus is on the function of the spermatozoon a common feature for sexual reproduction but extremely varied By exploring the variability a better understanding of male reproductive functions can develop These proceedings address the mechanisms of physiology and pathophysiology rather than diagnosis and treatment The symposium featured keynote lectures by invited speakers followed by presentations on specific aspects of the general topic of the session Experimental studies are given priority over clinical studies of patient populations The proceedings comprise both keynote speakers texts and selected free communications Posters were considered for publication in the proceedings and the volume includes exhibited materials on the work of prominent spermatologists highlighting their important past achievements in the field
