Texas 3rd Fluency Folder 3rd Grade:

Making the Most of Small Groups Debbie Diller, 2023-10-10 Author Debbie Diller turns her attention to small reading groups and the teacher's role in small group instruction. *Making the Most of Small Groups Differentiation for All* grapples with difficult questions regarding small group instruction in elementary classrooms such as How do I find the time? How can I be more organized? How do I form groups? How can I differentiate to meet the needs of all of my students? Structured around the five essential reading elements: comprehension, fluency, phonemic awareness, phonics, and vocabulary, the book provides practical tips, sample lessons, lesson plans, and templates, suggestions for related literacy work stations, and connections to whole group instruction. In addition to ideas to use immediately in the classroom, Diller provides an overview of relevant research and reflection questions for professional conversations.

Standards and Curriculum Johnny W. Lott, Kathleen Nishimura, 2005 This joint report by NCTM and the Association of State Supervisors of Mathematics (ASSM) of a project held July 21-24, 2004, provides insights into where we appear to be headed as a nation in our expectations for students' mathematics learning. The report is an initial attempt to examine across states the impact of NCTM's Principles and Standards for School Mathematics on curriculum reform, discern how state educational agencies approached the task of developing state standards, and bring to light areas of commonality and difference. The information obtained from this endeavor lays a foundation for discussions about the future direction of local, state, and national mathematics curricula and will be used by mathematics supervisors to further evaluate and refine state initiatives.
