What is the Semantic Field?

The semantic field refers to a group of words that share a common semantic category, displaying interconnected meanings within a particular context or topic.

It encompasses words and expressions related to a specific theme, creating a network of associations and relationships.

This linguistic concept aids in understanding the depth and nuances of language, as words within a semantic field often share similarities in meaning, contributing to coherent and meaningful communication.

The analysis of semantic fields is valuable in linguistic research, lexical studies, and in exploring the richness of vocabulary within specific domains of knowledge or discourse.
