Public Program Evaluation Laura Langbein, 2014-12-18 This readable and comprehensive text is designed to equip students and practitioners with the statistical skills needed to meet government standards regarding public program evaluation Even those with little statistical training will find the explanations clear with many illustrative examples case studies and applications Far more than a cookbook of statistical techniques the book begins with chapters on the overall context for successful program evaluations and carefully explains statistical methods and threats to internal and statistical validity that correspond to each evaluation design Laura Langbein then presents a variety of methods for program analysis and advise readers on how to select the mix of methods most appropriate for the issues they deal with always balancing methodology with the need for generality the size of the evaluator s budget the availability of data and the need for quick results

Predictive and Simulation Analytics Walter R. Paczkowski, 2023-07-18 This book connects predictive analytics and simulation analytics with the end goal of providing Rich Information to stakeholders in complex systems to direct data driven decisions Readers will explore methods for extracting information from data work with simple

and complex systems and meld multiple forms of analytics for a more nuanced understanding of data science. The methods can be readily applied to business problems such as demand measurement and forecasting, predictive modeling, pricing analytics, including elasticity estimation, customer satisfaction assessment, market research, new product development, and more. The book includes Python examples in Jupyter notebooks available at the book's affiliated Github. This volume is intended for current and aspiring business data analysts, data scientists, and market research professionals in both the private and public sectors.

Maize Price Differences and Evidence of Spatial Integration in Malawi Nyong'o, Lovemore, This study tests the long run and short run integration of maize markets in Malawi using the cointegration approach within the Vector Autoregressive modeling framework. The analysis is extended to Wald F Granger Causality tests to see the direction of causality between maize markets. A total of six maize markets, two from each region, were analyzed. Three are urban markets while two of the three rural markets are border markets. The study uses monthly maize retail prices for the period January 2000 to May 2008. Study findings show that nine out of the fifteen market pairs are integrated in the long run, but the degree of short run market integration is low, implying that the transmission of price information is slow.
