A Visualisation of the Advertising Landscape based on Social Media Networks and their Influence](#) Kilian Jaehne, 2021-11-17. Seminar paper from the year 2021 in the subject Business economics. Offline Marketing and Online Marketing. grade 1.0. Stralsund University of Applied Sciences. Wirtschaft. language English. abstract. This paper explores the role and responsibilities that user data plays in the market influence of larger social media companies. The reason for these inquiries are the current market conditions in which large companies collect user data on a huge scale to create a profile of their users. Of particular interest and complexity under the umbrella of the marketing strategy of a corporation is the topic of its digital presence. This focuses specially on all market participants, competitors, and consumers, as well as all persons, companies, and institutions that actively participate in the economic market through supply and demand by buying, selling, or exchanging goods or services. This digital presence plays nowadays a crucial role in our digitalised world.

CTV Advertising. Can TTD Lead the Way with Neuromarketing?, 2023-04-21. Seminar paper from the year 2022 in the subject Communications, Public Relations, Advertising, Marketing, Social Media. grade 1.0. Hult International Business School. language English. abstract. The Trade Desk hereinafter TTD is a global technology firm with a focus on real-time programmatic marketing automation solutions for goods and services. TTD identifies the main challenge on how TTD should work with significant TV platforms and providers to help drive this culture change among advertisers. A potential for marketers has arisen as a result of the emergence of CTV. More influential platforms including Netflix, Disney, and HBO Max have lately committed offering discounted subscriptions in return for a few minutes of ads between series and movies. The promise of highly targeted data-driven ad impressions for TV, which is frequently the largest campaign component, has replaced the conventional upfront approach where marketers commit billions in advance with no clear notion of who will see their ads. To delve into this problem and narrow it down to finally come up with a more detailed research question, the peel-the-onion approach was used. The funnel process within the framework of this research entails current data and its outlook of the ads market, both for traditional as well as CTV ads, a breakdown of both advertisement methods, its bidding allocation processes, differences, as well as its advantages and disadvantages, are explored. Furthermore, the significance of data collection, opportunity for CTV ads, and problems that might arise with it are discussed, addition ally to opportunities and risks that could emerge with this new shift to CTV ads, before finally ending in the research question: Can TTD revolutionize CTV advertising through neuromarketing and establish itself as the leading software platform for CTV platforms by displaying highly personalized ads to each unique user? Even though the current CTV advertising already provides promising metrics to measure the success

rate of the respective advertisements ads are only distributed to the according series and movies rather to the user himself Thus if TTD would establish a solution to be able to show specific ads to specific users the value both quantitative ROI and qualitative visiting the website shopping the product will increase significantly *Modern Music and Musicians: The pianist's guide* ,1918 Modern Music and Musicians: The pianist's guide.
