King of the Moonshiners Bruce E. Stewart, 2008 Lewis R Redmond was an archetypal moonshiner On March 1 1876 the twenty one year old North Carolinian shot and killed a U S deputy marshal who tried to arrest him on charges of illicit distilling He then fled to Pickens County South Carolina where within three years he gained national notoriety as the King of the Moonshiners More than any other individual moonshiner in southern Appalachia Redmond captured the imagination of middle class Americans Then as now media coverage had a lot to do with his reputation **After the Moonshiners** George Wesley Atkinson, 1881 *Among the Moonshiners; Or, A Drunkard's Legacy* B. Blood in the Hills Bruce Stewart, 2012-01-01 To many antebellum Americans Appalachia was a frightening wilderness of lawlessness peril robbers and hidden dangers The extensive media coverage of horse stealing and scalping raids profiled the region's residents as intrinsically violent After the Civil War this characterization continued to permeate perceptions of the area and news of the conflict between the Hatfields and the McCoys as well as the bloodshed associated with the coal labor strikes cemented Appalachia's violent reputation Blood in the Hills A History of Violence in Appalachia provides an in depth historical analysis of hostility in the region from the late eighteenth to the early twentieth century Editor Bruce E Stewart discusses aspects of the Appalachian violence culture examining skirmishes with the native population conflicts resulting from the region's rapid modernization and violence as a function of social control The contributors also address geographical isolation and ethnicity kinship gender class and race with the purpose of shedding light on an often stereotyped regional past Blood in the Hills does not attempt to apologize for the region but uses detailed research and analysis to explain it delving into the social and political factors that have defined Appalachia throughout its violent history **Lynching in the New South** W. Fitzhugh Brundage, 1993-05 Based on analysis of nearly 600 cases this volume offers a full appraisal of the complex character of lynching An original aspect of this work demonstrates the role blacks played in combatting lynching either by

Revenuers and Moonshiners Wilbur R. Miller,2017-11-01 The federal government s attempt to enforce civil rights measures during Reconstruction is usually regarded as a failure Far more successful however was the collection of federal excise taxes on liquor during the same period an effort that secured for the government its single most important source of internal revenue In **Revenuers and Moonshiners** Wilbur Miller explores the development and professionalization of the federal bureaucracy by examining federal liquor law enforcement in the mountain South after the Civil War He addresses the central questions of the conditions under which unpopular federal laws could be enforced and the ways in which enforcement remained limited The extension of federal taxing power to cover homemade whiskey was fiercely resisted by mountain people who had long relied on distilling to produce an easily transported and readily salable product made from their corn As a result the collection of the tax required the creation of the most extensive civilian law enforcement agency in the nation s history the Bureau of Internal Revenue The bureau both regulated taxpaying distilleries and combated illicit production This battle against moonshiners Miller argues implemented by the Republican party s vision of a federal authority capable of reaching into the most remote parts of the nation Miller concentrates his analysis on the revenuers but he nevertheless draws a clear picture of the mountain people who resisted them He dispels traditional views of moonshiners as folk heroes imbued with a stubborn individualism or simple country folk victimized by outside forces beyond their control or understanding Rather Miller shows that the men and sometimes women who made moonshine were members of a complex
