**Practical Assessment Of Clinical Examination Skills** Hasan Haboubi,Nafees Ali,Aseel Al-ansari,2021-05-05 The MRCP examination is constantly changing reflecting the changing pressures on doctors in training Whilst the MRCP PACES examination has evolved with the times the core ethos of it to act as a benchmark for sound clinical examination logical diagnostic ability common sense and most importantly the development of compassionate and ethical physicians has remained unchanged Whilst this exam has often struck fear into the hearts of junior doctors we believe it is an assessment of progression during a physician s training that should be relished as an opportunity to demonstrate these ageless qualities that caring practitioners should possess This book was born out of the philosophy that all doctors sitting their MRCP PACES already have the knowledge and skill to pass the exam but just require guidance in the correct logical approach that the Royal College is looking for The book has therefore quite unlike other MRCP PACES books avoided any attempts at being a definitive text Rather it has focused on the key aspects that the authors believe are required to pass the examination in particular focus on presentation style Whilst medicine is indeed an ocean the most commonly examined topics have been selected to reflect the likely scenarios a candidate will face as the old adage goes common things occur commonly In producing this book extensive feedback was sought from candidates revising for the examination to reflect their needs The layout therefore involves a methodical approach with a short introduction similar to that presented in the exam followed by clinical findings expected to be found An example of presentation style has then been produced to allow the candidate to rehearse and practice this essential component of the exam Doctors preparing for the exam have limited time due to busy work schedules Therefore summary books are key for candidates sitting the MRP PACES examination Most PACES candidates fail the exam based on history and communication stations Therefore attention has been paid to *Cases for PACES* Stephen Hoole,Andrew Fry,Rachel Davies,2024-09-16 Comprehensive Study Resource That Helps Readers Pass the PACES Exam Concise and ideal for quick reference *Cases for PACES* is the perfect resource for MRCP PACES preparation in the run up to the examination Its full colour one page case study format matches the style of the exam and lets you quickly read up on all the most common cases to ensure you will be prepared The authors experience in learning and teaching PACES is condensed to provide exactly what is needed to pass The informal writing style means *Cases for PACES* is also ideal

for self directed learning in groups The book will help readers hone their clinical skills and boost their confidence levels throughout their revision time Study resources covered in the book include Information pertaining to all five stations respiratory abdominal system examination with communication cardiovascular and neurology system examination and two consultations Revised updated and new cases on all the most common topics in the exam Aligned to the new exam format which was introduced in 2023 For MRCP candidates and final year medical students Cases for PACES is an accessible learning resource to gain a foundational mastery over all topics included in the PACES exam
