Engaging Isolated Communities in Disaster Preparation and Communication in the Philippines Dennis John Sumaylo, 2023-09-04 This book provides an account of how local government units in the Philippines engage marginalized and geographically isolated communities in taking part in pre disaster communication efforts The book focuses on communities classified by the government as Geographically Isolated and Disadvantaged Areas GIDA on the culturally rich island of Mindanao Philippines The focus is centered on GIDA communities because they are assumed to receive less information and help in relation to their circumstances This book accounts for the disaster preparedness communicative conditions of people living in GIDAS and identifies synergies and tensions in the engagement process As such specific branches of enquiry focus on how information seeking and sharing experiences of GIDA communities inform the current practice of community engagement In taking this research approach this book deliberately gives voice to these marginalized and often silenced communities In

general the study examines other possibilities or variables in the pre disaster risk communication process that truly engage geographically isolated and socioeconomically disadvantaged communities in disaster risk reduction and management DRRM Considering the existing methodologies used to engage local communities in DRRM this book looks at ways in which bottom up and top down approaches could be melded together for a transformational level of engagement in these communities The novelty of addressing issues concerning geographically isolated communities in a developing country is a research track worthy of being investigated by academics The book is of interest to students and in development communication and disaster risk communication as well as community engagement practitioners specializing in DRRM The framework proposed in this book for engaging isolated communities is helpful to practitioners in designing planning and implementing pre disaster communication and community engagement programs

Digital Togetherness in the Middle East and North Africa Chanmin Chung, 2025-02-07. In an era when digital relationships define social landscapes, Digital Togetherness in the Middle East and North Africa offers a unique exploration into how these technologies impact ministries with young adults in the regions. Authored by ChanMin Chung, this compelling work delves into the effective use of social media, instant messaging, and video communication platforms to forge meaningful relationships and promote spiritual dialogue. Focused on the Christian work in the MENA region, Chung's research provides practical digital strategies beyond conventional outreach, addressing the unique challenges gospel workers face in engaging a tech-savvy young adult population amid cultural and religious complexities. This book is an invaluable resource for Christian workers, leaders, and anyone interested in the powerful role of digital media in enhancing intercultural and interfaith interactions. Whether you are a practitioner on the ground or a strategist behind the scenes, these insights will equip you to build deeper, more resilient connections in your ministries. Join Chung on a journey of digital discovery and spiritual outreach that promises to transform your approach to ministries in the digital age. [Serving Vulnerable and Marginalized Populations in Social and Educational Contexts](#) Anies Al-Hroub, Sally Reis, Joseph Madaus, Itab Shuayb, 2024-04-26. There is evidence that the global COVID-19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups, including exceptional learners, stateless, street migrant, and refugee children and youths, and the limited use of frameworks of emergency planning with and for marginalized and at-risk individuals. These challenges are multi-sectoral and intersecting, and they require multi- and interdisciplinary interventions to inform inclusive responses. These issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education, online, remote, and blended education. Intersecting forms of discrimination, such as gender, socioeconomic, and legal status, further exacerbate the problem. This has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences, problems, and needs from an educational perspective, thus bringing insights into their vulnerabilities during the pandemic. **Life Skills, Sexual Maturation and Sanitation** Julie Stewart, 2003. Most pupils in eastern and southern Africa leave school before they have received an education equipping them with many essential life skills. There has therefore been much discussion of life skills as a key part of the primary curriculum and about better equipping pupils to cope with unfavourable economic climates. They advocate that pupils acquire skills for survival after school rather than the

largely academic curriculum which is taught at present This exploratory research from Kenya is part of a three part study conducted in Kenya Uganda and Zimbabwe If focuses on the provision of teaching of life skills in primary schools how the process of sexual maturation for boys and girls in handled in schools and at home and explores whether there is a link between the lack of adequate sanitation protection for girls and dropout rates *Journal of Anthropological Research* ,2011

Working Papers on Comparative Legislative Studies Lawrence D. Longley,1994 *The Role of Market Research in the Internationalization of Small and Medium Enterprises* Adeel Asghar,Shahid Kalim Khan,2019-10-14 Master s Thesis from the year 2009 in the subject Business economics Market research grade 3 5 M lardalen University School of Sustainable Development of Society and Technology course MS International Marketing language English abstract The topic of this dissertation comes from these two areas internationalization of small and medium enterprises SMEs and international entrepreneurship When looking into SMEs internationalization research there is lack of material about pre internationalization stage of SMEs It is also very critical that firms should have theoretical guidelines to follow in early internationalization stage when they have no or very little international experience SMEs are well known for their innovative and risk taking approach This study aims at providing them with a strategic framework or method to analyze the marketability of their products or services and exploit internationalization opportunities It also focuses on helping them in reducing their risks linked with cross border business opportunities This research is performed through case study method A new conceptual model has been developed by integrating relevant standard approaches within the field of research This model has been further explained by implementing it on case company Internationalization of SMEs in general has become a very famous topic in the world This is the area which is developing further at present Plenty of research has been performed from different perspectives and angles International Entrepreneurship is an emerging area when it is yet struggling for standard definition International entrepreneurship theory and SMEs are very much connected areas While making a study related to internationalization of SMEs we cannot neglect the importance of entrepreneurs which is widely recognized as the main variables in SMEs internationalization Developing theoretical and conceptual model by integrating different existing theories is very usual in SMEs internationalization research area This may be due the reason that there is lack of standard theories or approaches in this area so there is an absolute need for such efforts Motivated by similar drive authors aimed to create customized theoretical framework for analysis with the help of different standard approaches in the field

Centre for Research in Library and Information Management, 2006 From their beginnings in 1995 the Libraries Without Walls conferences have made a major change in the practice of librarianship Drawn from the sixth Libraries Without Walls Conference this book aims at assisting educational specialists and course developers in increasing their understanding of importance of information in the learning process *The Returns from Arthritis Research: Approach, analysis and recommendations*, 2004 There is increasing pressure for research funders to demonstrate and seek to maximise the payback from the research they fund This report prepared for and funded by the Arthritis Research Campaign arc presents the results

of an evaluation of 16 research grants awarded by arc in the early 1990s. The main objective was to develop a system for evaluating arthritis research with a view to allowing arc to stimulate and manage the exploitation of research advances so that they translate into outcomes of practical benefit to people with arthritis. The report presents a framework that conceptualises the relationship between research inputs, process, output and outcomes. Using this framework we catalogue a diverse range of research output and outcomes arising from these 16 grants and make a series of quantitative and qualitative assessments comparing, for example, payback from project grants versus programme grants. In conclusion we make six observations: There is a diversity of research payback. The researcher is the key driver of research translation. Short focused project grants seem to provide value for money. Intended and unintended flexibility in funding is used advantageously. Referees' contributions to the peer review process are of variable benefit. The payback framework could be operationalised and embedded by arc. The companion Volume 2 is a collection of the case studies. These case studies all follow a similar format based on the conceptual model and provide a rich and detailed narrative on the payback of each research grant.
