Contemporary Business Louis E. Boone, David L. Kurtz, Brahm Canzer, 2021-08-10 Student friendly engaging and accessible Contemporary Business 19e equips students with the skills to assess and solve today's global business challenges and succeed in a fast paced environment Designed to drive interest in business our newest edition offers a comprehensive approach to the material including a variety of resources to support today's students Its modern approach wealth of videos relevant and up to date content and career readiness resources keep your course current and engaging *Future Smart* James Canton, 2015-01-27 Game changing trends are coming in business technology workforce economy security and environment Climate change energy demand and population growth will redefine global risk and power Exponential new technologies will emerge in digital money mobile commerce and big data An explosive new middle class of over one billion consumers will enter the marketplace Every nation job business and person will be transformed To thrive in this future you have to become predictive adaptive and agile to become Future Smart Dr James Canton a renowned global futurist and visionary business advisor illuminates the pivotal forces and global power shifts that everyone must understand today to thrive in a rapidly changing landscape Regenerative medicine will extend our lifetimes and rebuild our bodies Robots and drones will drive our cars teach our kids and fight our wars Smart machines will design manage and service 40% of all global businesses energy commerce finance and manufacturing without humans Digital consumers who live always connected will challenge every business to change its strategy Climate change wars will redefine security and resources Most of us are not prepared to meet the challenges the future will bring but these changes are coming fast Armed with knowledge those who are Future Smart can take action to reinvent themselves their businesses and their world *Crypto Asset Investing in the Age of Autonomy* Jake Ryan, 2020-12-22 Competition the drive for efficiency and continuous improvement ultimately push businesses toward automation and later towards autonomy If a business can operate without human intervention it will minimize its operational cost If Uber can remove the expense of a driver with an autonomous vehicle it will provide its service cheaper than a competitor who can't If an artificially intelligent trading company can search find and take advantage of some arbitrage opportunity then it can profit where its competitors cannot A business that can analyze and execute in real time without needing to wait for a human to act is a business that will be able to take advantage of brief inefficiencies from other markets or businesses This trend following a thesis that is based on 100 years of proven economic theory Short wave economic cycles those 5 to 10 year cycles are driven by credit but the long wave economic cycles those 50 to 60 year cycles are driven by technological revolution We've had 5 cycles over the past 200 years with the last wave the Age of Information Telecommunications We've seen evidence that a new cycle has begun Technological revolutions come by way of a cluster of new innovations About a decade ago you started to see AI robotics and IoT sensors delivering on automation That's been powerful but not transformational It does not force businesses to fundamentally change how they do business The last piece

of the puzzle was cryptocurrency because it allows us to process and transfer economic value without human intervention. Soon there will be a global race to build autonomous operations. Businesses and organizations without autonomous operations simply will not be able to compete with those that do because autonomy is the ultimate competitive advantage. Crypto is the mechanism that will accrue value from being the infrastructure for the next digital financial revolution. Crypto Asset Investing lays out a case that we've begun a new technological revolution similar to the Internet Age of the 1990s. Artificial intelligence, the Internet of Things, robotics, and cryptocurrency are converging to deliver on a new age, what I call the Age of Autonomy. Understanding the transformation that's taken place before anyone else can yield enormous investment opportunity. In this book, you'll learn how and why to invest in crypto assets.
