Consumer Culture and Modernity Don Slater, 1997-02-07 This book provides a comprehensive introduction to the issues concepts and theories through which people have tried to understand consumer culture throughout the modern period and puts the current state of thinking into a broader context Thematically organized the book shows how the central aspects of consumer culture such as needs choice identity status alienation objects culture have been debated within modern theories from those of earlier thinkers such as Marx and Simmel to contemporary forms of post structuralism and postmodernism This approach introduces consumer culture as a subject which far from being of narrow or recent interest is intimately tied to the central issues of modern times and modern social thought With its reviews of major theorists set within a full account of the development of the subject this book should be of interest to undergraduate and postgraduate students in the many disciplines which now study consumer culture including communications and cultural studies anthropology and history

Consumer Culture, Branding and Identity in the New Russia Graham Roberts, 2016-04-14 As shopping has been transformed from a chore into a major source of hedonistic pleasure a specifically Russian consumer culture has begun to emerge that is unlike any other This book examines the many different facets of consumption in today s Russia including retailing advertising and social networking Throughout emphasis is placed on the inherently visual not to say spectacular nature both of consumption generally and of Russian consumer culture in particular Particular attention is paid to the ways in which brands both Russian and foreign construct categories of identity in order to claim legitimacy for themselves What emerges is a fascinating picture of how consumer culture is being reinvented in Russia today in a society which has one nostalgic eye turned towards the past

and the other utopian eye set firmly on the future Borrowing concepts from both marketing and cultural studies the approach throughout is interdisciplinary and will be of considerable interest to researchers students and practitioners wishing to gain invaluable insights into one of the most lucrative and exciting of today's emerging markets

New Perspectives on Consumer Culture Theory and Research Renáta Sedláková, Pavel Zahrádka, 2013-02-21 In the post socialist countries the subject of consumption has not received sufficient attention from the perspective of Consumer Culture Theory The opinion has long prevailed among the majority of social scientists from this region that consumer society and consumptive behaviour is a socially destructive phenomenon and one of the main causes of problems in contemporary society This impression has prevented them from scrutinizing the symbolic dimension of consumption and led them to a critical analysis of the social causes and environmental consequences of excessive consumption The examination of symbolic aspects of consumer culture or the mutual interaction of culture and marketing communication for example have remained outside the realm of academic interest The absence of comprehensive academic interest in the topic of consumer culture does not however mean that consumer culture is not a subject of research Such research instead takes place outside of the sphere of the university in the commercial sector and is primarily focused on issues of how to successfully sell products and services Due to competitive concerns commercial research into consumer culture has led to the privatization of its results which runs contrary to the ideal of science as an open and critical project The goal of this book is to create a counterbalance to this science in the

shadows and overcome the mutual distrust between the academic and commercial spheres and make possible the transfer of recent discoveries between the two parties This publication is dedicated to the exploration of three areas of consumer culture research on consumer culture and consumer behaviour in post socialist countries especially in the Czech Republic new developments in the theory of consumer culture and innovative methodological approaches to its research and finally to recent criticism of consumer culture and consumerism It emerged from the collaboration of a team of authors made up of leading European researchers in the field of consumer culture such as Kate Soper London Metropolitan University Franz Liebl Berlin University of the Arts and Rainer Gries University of Vienna as well as promising young scholars from the Czech Republic Great Britain Sweden Serbia Poland and Portugal This book will be of great interest to students and scholars of sociology cultural studies marketing and market research

Abandon All Hope - Consumerism and Loss of Identity in Bret Easton Ellis's American Psycho As an Example of Blank Fiction Anja Schiel, 2008-04 Thesis M A from the year 2005 in the subject American Studies Literature grade 1 5 University of Hamburg Sprach Literatur und Medienwissenschaft language English abstract Bret Easton Ellis s American Psycho has been labeled many things from Brat Pack Fiction to Generation X to Minimal Realism While the classification of the novel might be difficult and it has often been misunderstood for its extremely violent scenes what is clear to the attentive reader is its critique of consumer culture Critics have acknowledged an emergence of a large number of writings dealing with this topic in contemporary American literature in the recent past These novels focus on the relationship of American youth with consumer culture with a seemingly non elaborate content and style Attempts of explaining this kind of writing which has also been called fiction of insurgency new narrative downtown writing and punk fiction range from millennial angst to the classification of this literary movement as part of the postmodern culture What seems clear is that these narrations are closely related to the society they have been created in The way these texts incorporate products of their time as a constant accompanying element places them very clearly in a specific time period The apparent non existence of complexity concerning the style which at times reminds the reader of a movie script or a sequence of an MTV video has in the case of American Psycho caused many critics to classify the novel as boring and deny the author the status of an artist Exactly this seeming meaninglessness of these novels argues in favor of a term introduced by critics James Annesley and Elizabeth Young Blank fiction or Blank Generation Fiction The term Blank fiction seems to capture perfectly the emptiness created by consumer culture that has found its way into these narratives not simply in its context but also by means of its language incorporating consumer goods
