

An abstract wireframe architectural drawing in light blue and grey, featuring a grid of lines that form a curved, shell-like structure. The drawing is composed of numerous thin lines that intersect to create a mesh, with some lines extending outwards like spokes from a central point. The overall effect is that of a technical or conceptual architectural sketch.

Taste: Media and Interior Design Karin Tehve, 2023-06-26 This book traces and explores the evolution of taste from a design perspective what it is how it works and what it does Karin Tehve examines taste primarily through its recursive relationship to media. This ongoing process changes the relationship between designers and the public and our understanding of the relationship of individuals to their social contexts. Through an analysis of taste design is understood to be an active constituent of social life not as autonomous from it. This book reclaims a term long dismissed from interior design and unveils taste's role as a powerful social and political agent within systems of aesthetics affecting both its producers and consumers. Each chapter discusses a taste concept or definition analyzes its reciprocal relationship with media and explores its implications for interior design. Illustrated with 70 images taste's relationship to media is viewed through a variety of different lenses including books photography magazines internet social media and algorithms. Written primarily for students and scholars of interior design and related design fields this book will be a helpful resource for all those interested in the question of taste and is an invitation to produce and consume all media critically.

Approaching Regeneration of the Built Environment Saimir Shtylla, Hamid Rabiei, 2025-06-02 This book approaches three important aspects related with urban regeneration such as research innovation and challenges. In light of its growing interdisciplinarity the selected contributions extend the debate to the importance of the cooperation between various disciplines attention to the latest design and technological trends as well major inclusivity of citizens for a correct decision making process leading afterwards into successful development test and implementation of innovative solutions. An important focus will be set on the important role innovations play in the preservation and management of heritage sites in response to the climate and urban challenges encountered. Also this contribution aims to transmit the importance of local
