2017 in the subject Computer Science IT Security grade 9 University of Nairobi language English abstract Customer
satisfaction has been the key competitive strategy of Figura Leisure Centre However there is no clear information
management system to help them achieve this Doing the work manually is quite ineffective and time consuming The
organization is losing revenues because of poor management of data and communication system There is no customer
information and follow up on payments by staff is quite a challenge Proper communication among the staff is also missing
This makes it hard for the staff to respond to customer needs promptly and in the right manner Customer feedback is also
hard to get Data processing storage and communication are hard because if done at all it is through the conventional
approach This calls for the business to adopt cloud computing s Software as a Service system to enhance communication
internally and advance interaction with external customers SaaS is quite suitable for small business and organizations like
Figura Leisure Centre With the use of SaaS there will be change in the way the organization conducts its business When
used appropriately SaaS will decrease use of physical infrastructure increased implementation speed and recommendable
client experience SaaS will also save some upfront expenses SaaS system would help the business in compiling customer
