T. Kriebel,Andrés Mario Zervigón,2016-11-25 Recent decades have seen photography's privileged relationship to the real
come under question Spurred by the postmodern critique of photography in the 1980s and the rise of digital technologies
soon thereafter scholars have been asking who and what built this understanding of the medium in the first place
Photography and Doubt reflects on this interest in photography's referential power by discussing it in rigorously historical
terms How was the understanding of photographic realism cultivated in the first place What do cases of staged and
manipulated photography reveal about that realism's hold on audiences across the medium's history Have doubts about
photography's testimonial power stimulated as much knowledge as its realism Edited by Sabine T Kriebel and Andr s Mario
Zervig n Photography and Doubt is the first multi authored collection specifically designed to explore these questions Its 13
original essays illustrated with 73 color images explore cases when the link between the photographic image and its referent
was placed under stress and when photography was as attuned to its myth making capabilities as to its claims to authenticity
Photography and Doubt will serve as a valuable resource for students and scholars in art history visual and media studies
philosophy and the history of science and technology **Daidō Moriyama** Daidō Moriyama,2010 *Limited Edition*
Moriyama 1 Filippo Maggia,2018-02 For the first time the colour photographs realised by Daido Moriyama one of the leading
figures in contemporary Japanese photography An extraordinary limited edition artist book edited by Filippo Maggia
intended for all collectors searching for the magic of a precious and extraordinary product destined over time to grow in
value Considered one of the great masters of contemporary Japanese photography Daido Moriyama is a lone traveller whose
black and white images recount visions and worlds hidden just beneath the surface of reality However there are many sides
to his practice here for the first time over 250 colour photographs taken between the 1960s and the 1970s A constant flow of
images that is often frenetic or suddenly suspended following the rhythm of an unfettered restless life spent travelling the
roads of the world *Reflection and Refraction* Daidō Moriyama,2012 Daido Moriyama's Reflection and Refraction is
compiled from two earlier collections Auto portrait and Sunflower published by MMM in 2010 and 2011 respectively
Carefully sequenced and handsomely printed in deep resonant blacks that intensify the grainy textures Moriyama so
famously elicits from his street scenes and interiors Reflection and Refraction forms a cumulative record of Japan's often
contradictory social fabric Moriyama's images are intensely brooding and yet seemingly casual establishing a relationship to
the world that he likens to his shadow in the brief preface to this volume I strolled down the street holding a camera my
shadow falling onto the road and across walls With the sun high above my shadow followed closely as though pursuing me
The silhouette shadow was now my companion This is how my shadow and I relate to each other Similarly my camera and I
or the world and photography also connect to each other in the same way **Daido Moriyama** Mark Holborn,2025-09-16
