**What Can We Learn from the Great Depression?** Dana Frank, 2024-10-08 Four stories of resilience mutual aid and radical rebellion that will transform how we understand the Great Depression Drawing on little known stories of working people What Can We Learn from the Great Depression amplifies voices that have been long omitted from standard histories of the Depression era In four tales Professor Dana Frank explores how ordinary working people in the US turned to collective action to meet the crisis of the Great Depression and what we can learn from them today Readers are introduced to the 7 daring Black women who worked as wet nurses and staged a sit down strike to demand better pay and an end to racial discrimination the groups who used mutual aid cooperatives eviction protests and demands for government relief to meet their basic needs the million Mexican and Mexican American repatriados who were erased from mainstream historical memory while often fictitious white Dust Bowl migrants became enshrined the Black Legion a white supremacist fascist organization that saw racism antisemitism anti Catholicism and fascism as the cure to the Depression While capitalism crashed during the Great Depression racism did not and was in fact wielded by some to blame and oppress their neighbors Patriarchy persisted too undermining the power of social movements and justifying women s marginalization within them For other ordinary people collective action gave them the means to survive and fight against such hostilities What resulted were powerful new forms of horizontal reciprocity and solidarity that allowed people to provide each other with the bread beans and comradeship of daily life The New Deal when it arrived provided vital resources to many but others were cut off from its full benefits especially if they were women or people of color What Can We Learn from the Great Depression shows us how we might look to the past to think about how we can shape the future of our own failed economy These lessons can also help us imagine and build movements to challenge such an economy and to transform the state as a whole in service to the common good without replicating racism and patriarchy

*The Routledge History of Modern Latin American Migration* Andreas E. Feldmann, Xochitl Bada, Jorge Durand, Stephanie Schütze, 2022-10-26

The Routledge History of Modern Latin American Migration offers a systematic account of population movements to and from the region over the last 150 years spanning from the massive transoceanic migration of the 1870s to contemporary intraregional and transnational movements. The volume introduces the migratory trajectories of Latin American populations as a complex web of transnational movements linking origin, transit, and receiving countries. It showcases the historical mobility dynamics of different national groups including Arab, Asian, African, European, and indigenous migration and their divergent international trajectories within existing migration systems in the Western Hemisphere including South America, the Caribbean, and Mesoamerica. The contributors explore some of the main causes for migration including wars, economic dislocation, social immobility, environmental degradation, repression, and violence. Multiple case studies address critical contemporary topics such as the Venezuelan exodus, Central American migrant caravans, environmental migration, indigenous and gender migration, migrant religiosity, transit and return migration, urban labor markets, internal displacement, the nexus between organized crime and forced migration, the role of social media and new communication technologies, and the effects of the COVID-19 pandemic on movement. These essays provide a comprehensive map of the historical evolution of migration in Latin America and contribute to define future challenges in migration studies in the region. This book will be of interest to scholars of Latin American and Migration Studies in the disciplines of history, sociology, political science, anthropology, and geography.

*Amplifying the Curriculum* Aída Walqui, George C. Bunch, Peggy Mueller, 2025

Expanded and revised to include four entirely new chapters, this thoroughly updated edition presents a model for how educators can design high-quality, challenging, and supportive learning opportunities for multilingual learners. Starting with the premise that conceptual, analytic, and language practices develop simultaneously as students engage in disciplinary learning, the authors argue for instruction that amplifies rather than simplifies expectations, concepts, texts, and learning tasks. They offer clear guidance for designing well-supported lessons with examples that demonstrate the approach in elementary and secondary classrooms across various subject areas: math, science, language arts, and social studies, and contexts including newcomer classrooms. A new chapter written in Spanish on instruction in students' home languages. This popular resource guides teachers through the coherent design of tasks, lessons, and units that invite all students to engage in productive, meaningful, dialogic, and intellectually engaging activity. The book concludes with a discussion of where teachers might begin and how teacher educators, professional development providers, and educational leaders can support them in these efforts.
