Digital Transformation for Business and Society Mohammad Nabil Almunawar, Patricia Ordóñez de Pablos, Muhammad Anshari, 2023-10-06 The advancement of technology such as data analytics and AI has led to the birth of Industry 4.0 in which technology seems to be at the centre of development. However, as the COVID-19 pandemic created havoc, the entire world production chain was seriously affected, highlighting that machines alone, although fully connected and automated, cannot function without people. This book addresses contemporary issues and the impact of digital transformation on individuals, businesses, and governments in Asia. As Asian nations are moving fast towards the digital economy, this edited collection offers new perspectives on understanding emerging business opportunities as well as the challenges faced. Chapters explore the variables that accelerate digital transformation, notably the COVID-19 pandemic, the rapid development of information and communication technology, AI, big data, and affordable internet access, and their impact on business and society. With rich empirical studies from leading researchers, this book will be a reference for academics and scholars across business disciplines, including information technology and innovation management, organisational and strategic management, as well as those interested in industrial development.

Business Statistics for Contemporary Decision Making Ken Black, Tiffany Bayley, Ignacio Castillo, 2023-05-15 Show students why business statistics is an increasingly important business skill through a student-friendly pedagogy. In this fourth Canadian edition of *Business Statistics For Contemporary Decision Making*, authors Ken Black, Tiffany Bayley, and Ignacio Castillo use current real-world data to equip students with the business analytics techniques and quantitative decision-making skills required to make smart decisions in today's workplace.

Handbook of Industry 4.0 and SMART Systems Diego Galar Pascual, Pasquale Daponte, Uday Kumar, 2019-09-17 Industry 4.0 refers to the fourth generation of industrial activity, characterized by smart systems and internet-based solutions. This book describes the fourth revolution based on instrumented, interconnected, and intelligent assets. The different book chapters provide a perspective on technologies and methodologies developed and deployed, leading to this concept. With an aim to increase performance, productivity, and flexibility, major application areas of maintenance through smart systems have been discussed in detail. Applicability of 4.0 in transportation, energy, and infrastructure is explored with effects on technology, organisation, and operations from a systems perspective.

Business Statistics Ken Black, 2024-04-16 *Business Statistics* uses current real-world data to equip students with the business analytics techniques and quantitative decision-making skills required to make more thoughtful, information-based decisions in today's workplace.
