Susan Young

Digital Wireless Colour Camera Recordable Cctv Kit Cwd3:

CCTV for Security Professionals Alan Matchett, 2003 *CCTV for Security Professionals* provides the information necessary to design the ideal CCTV system. The chapters are stand alone sources of information on their subjects and are presented in logical sequence to guide the reader from basic principles to more complex for a complete system understanding. In his straight forward and informative text Alan Matchett approaches the camera systems from the user's point of view providing the security manager with the knowledge to discuss the system its desired features and the areas of design concern within the context of an organization's business model. This can prove to be invaluable when evaluating an existing system the use and components of a given system or in evaluating a system design proposed by a vendor. Installers and service personnel will benefit from the functions and possibilities that are available with the various components and by gaining an understanding of their customer's needs. Newer technicians will learn how to set up the system properly and can familiarize themselves with the technologies that go into a CCTV system. Security equipment sales personnel will also gain a better knowledge of the customer's needs as well as learn to determine exactly what questions they should be asking the customer and what the customer's responses mean. In this manner the book will offer invaluable tips to ensure customers get exactly what they expect in a system. Provides a detailed explanation of CCTV components and the technology behind analog and digital CCTV systems. Establishes a common language for security professionals. CCTV system designers and sales personnel to use as a basis for system design. Provides a clear explanation of the design process and design principles. [CCTV for Wildlife Monitoring](#) Susan Young, 2016-06-18 *CCTV for Wildlife Monitoring* is a handbook on the use of CCTV in nature watching conservation and ecological research. CCTV offers a unique ability to monitor wildlife in real time stream video to the web capture imagery of fast moving species or cold animals such as wet otters or fish and maintain monitoring over long periods of time in a diverse array of habitats. Wildlife watchers can take advantage of a huge range of CCTV cameras recording devices and accessories developed for use in non wildlife applications. CCTV allows intimate study of animal behaviour not possible with other technologies. With expert experience in engineering photography and wildlife Susan Young describes CCTV equipment and techniques giving readers the confidence to tackle what initially may seem technically challenging. The book enables the reader to navigate the technical aspects of recording basic analogue high definition HD TVI and IP cameras portable CCTV digital video recorders DVR and video processing by focusing on practical applications. No prior knowledge of CCTV is required step by step information is provided to get anyone started recording wildlife. In depth methods for recording foxes badger deer otters small mammals and fish are also included and the book makes comparisons with trail cameras where appropriate. Examples of recorded footage illustrate the book along with detailed diagrams on camera set ups and links to accompanying videos on YouTube. Case studies show real projects both the equipment used and the results. This book will be of interest to amateur naturalists wishing to have a window into the private world of wildlife.
