Globalization's Contradictions Dennis Conway, Nik Heynen, 2006-11-22 Since the 1980s globalization and neoliberalism have brought about a comprehensive restructuring of everyone's lives People are being disciplined by neoliberal economic agendas transformed by communication and information technology changes global commodity chains and networks and in the Global South in particular destroyed livelihoods debilitating impoverishment disease pandemics among other disastrous disruptions are also globalization's legacy This collection of geographical treatments of such a complex set of processes unearths the contradictions in the impacts of globalization on people's lives Globalization's Contradictions firstly introduces globalization in all its intricacy and contrariness followed on by substantive coverage of globalization's dimensions Other areas that are covered in depth are globalization's macro economic faces globalization's unruly spaces globalization's geo political faces ecological globalization globalization's cultural challenges globalization from below fair globalization Globalization's Contradictions is a critical examination of the continuing role of international and supra national institutions and their involvement in the political economic management

and determination of global restructuring Deliberately this collection raises questions even as it offers geographical insights and thoughtful assessments of globalization s multifaceted faces and spaces *Global Bioethics* Henk ten Have,2016-02-10

The panorama of bioethical problems is different today Patients travel to Thailand for fast surgery commercial surrogate mothers in India deliver babies to parents in rich countries organs body parts and tissues are trafficked from East to Western Europe physicians and nurses migrating from Africa to the U S thousands of children or patients with malaria tuberculosis and AIDS are dying each day because they cannot afford effective drugs that are too expensive Mainstream bioethics as it has developed during the last 50 years in Western countries is evolving into a broader approach that is relevant for people across the world and is focused on new global problems This book provides an introduction into the new field of global bioethics Addressing these problems requires a broader vision of bioethics that not only goes beyond the current emphasis on individual autonomy but that criticizes the social economic and political context that is producing the problems at global level This book argues that global bioethics is a necessity because the social economic and environmental effects of globalization require critical responses Global bioethics is not a finished product that can simply be applied to solve global problems but it is the ongoing result of interaction and exchange between local practices and global discourse It combines recognition of differences and respect for cultural diversity with convergence towards common perspectives and shared values The book examines the nature of global problems as well as the type of responses that are needed in order to exemplify the substance of global bioethics It discusses the ethical frameworks that are available for global discourse and shows how these are transformed into global governance mechanisms and practices *The Forgotten Dimension of Financial Globalization* Katherine Sperling,1999

The Importance of Intercultural Competence in Higher Education and its Impact on Professional Life Juliane Couto,2017-10-10 Master s Thesis from the year 2017 in the subject Business economics Business Management Corporate Governance grade 1 7 Cologne Business School K In language English abstract

On the basis of a growing international interconnection that has led to an increasing number of culturally diverse teams study and working environments as well as significant changes in the intercultural orientation aimed at adapting to the realities of a multicultural society the object of this thesis is to expound the significance of intercultural competence in the field of higher education to illustrate challenges stemming from an intercultural cooperation and to cover feasible improvement opportunities of dealing with them In order to be interculturally competent certain character traits emerge as very important Also certain soft skills especially the ones related to the social competence were identified as crucial Learning those is as a matter of course a lifelong process however influenced by individual experiences and the external environment Higher Education Institution belong to the external environment that plays a significant role in developing or at least promoting ways for intercultural competence Recently the role of higher education in this context has been explored in great detail Based upon a solid theoretical literature review and an empirical research in form of a case study the research

concluded that IC promoted at HEI has only a theoretical and initial impact on professional life To paraphrase it differently HEI has the function to lay the fundamental ground in learning to become intercultural competent and to develop this competence further onto a professional level However being intercultural competent means continuous learning as each and every intercultural situation differs from another Nevertheless there are certain instruments that facilitate the development of intercultural competence What does are and how one can make use of them is one of the topics dealt with in the present thesis
