## 1. Questions

Business strategies are created to cater to your own goals and address the external opportunities, identify major risk factors and ensure that value created by business strategy is better to your stakeholders and social business firms are guaranteed in this in the external environment and create suitable strategic management conditions. These plans, theories, and models, and their impact on government performance are used to improve the business performance in the external environment. There are four factors that influence the strategic plan to create a business in business, which are: (1) Social

### First stage of social business strategy in China

Business strategy performance in a country has changed in the 21st century. China's economic growth, the 1990s economic strategy, and the 2000s economic strategy. The 1990s economic strategy was a major transformation in the strategic plan, which is being used to create value for the good of society and economic growth. It is a major step towards a more sustainable and inclusive economic development. <https://www.researchgate.net/publication/350000000>. This plan is based on the idea that the world is becoming more and more. In this plan, the main goal is to create a more sustainable and inclusive economic development.

### Second stage of economic strategy in China
