Making Societies By William G Roy :

Making Societies William G. Roy, 2001-01-23 This book shows how the social constructions of time space race gender and class intersect with each other to produce particular social phenomena that are enduring and significant for our society Leading the reader through examples drawn from around the world the author shows how these categories are social constructions historically formed ideologically loaded and subject to change

Making Societies the Historical Construction of Our World ,2015

Sociology and Human Rights Judith Blau, Mark Frezzo, 2011-05-11 This anthology examines the implications that human rights have for the social sciences It discusses how the 1789 Bill of Rights of the US Constitution should be expanded to encompass fundamental human rights as most other constitutions already have been This collection has special relevance for sociologists because many implicitly assume positive human rights in their studies of for example health care and education and yet do not make these assumptions explicit This volume also discusses the relevance of social and political movements The discussions in this text allow readers to compare constitutions examine international human rights treaties and delve into countries histories Sociology and Human Rights is ideal for engaging in comparative studies of countries politics and aspects of international cooperation Each chapter ends with discussion questions to challenge students to think critically about human rights in the United States and around the world

Law/Society John Sutton, 2001 A core text for the Law and Society or Sociology of Law course offered in Sociology Criminal Justice Political Science and Schools of Law John Sutton offers an explicitly analytical perspective to the subject how does law change What makes law more or less effective in solving social problems What do lawyers do Chapter 1 contrasts normative and sociological perspectives on law and presents a brief primer on the logic of research and inference as it is applied to law related issues Theories of legal change are discussed within a common conceptual framework that highlights the explanatory strengths and weaknesses of different arguments Discussions of law in action are explicitly comparative applying a consistent model to explain the variable outcomes of civil rights legislation Many concrete in depth examples throughout the chapters

Muslim Americans Nahid Afrose Kabir, 2016-08-12 With Islamophobia on the rise in the US since 9 11 Muslims remain the most misunderstood people in American society Taking as its point of departure the question of the compatibility of Islam and democracy this book examines Muslims sense of belonging in American society Based on extensive interview data across seven states in the US the author explores the question of what it means to be American or un American amongst Muslims offering insights into common views of community culture and wider society Through a combination of interviewees responses and discourse analysis of print media Muslim Americans also raises the question of whether media coverage of the issue might itself be considered un American An empirically grounded study of race and faith based relations this book undertakes a rigorous questioning of what it means to be American in the contemporary US As such it will appeal to scholars of sociology and political science with interests in race ethnicity religion and national identity
