500 Student Meals Deborah Gray, 2015-08-06. For so many young people, their first day as a student is the first time they have had to puzzle over the question of how to feed themselves, and once the mom-packed food parcel runs out, they have to start fendng for themselves. The aim of this book is to make cooking for one in student accommodation easy. It takes a realistic view of what students really want to eat and their limitations. Recipes do not assume that students have room to cook with multiple pans or own fancy cookware or food processors, and this book understands that students hate doing the dishes. They may have only one shelf in the refrigerator, so this book uses very short lists of ingredients, without exotic items, expensive perishables or alcohol. The recipes in this book have also been developed to teach students a number of basic skills, such as how to hard cook an egg, how long to fry steak, how to make a hamburger, and how to cook a simple fillet of fish. Alongside these must-know recipes is a range of imaginative, international and contemporary recipes for any time of the day or night, and some that are fun and silly, too. They reflect student life with foods young people love to eat, as well as some they know they should be eating. Including dietary notes, cooking tips, and possible substitutions, as well as vegetarian, vegan, and

gluten free options this book has all the technical help shortcuts and delicious recipes that a student cook needs to know
