

Educating staff on the importance of Cyber Security Awareness

The staff induction process is an ideal time to train new employees about the importance of cyber security.

Why is it so important?

Under the Notifiable Data Breaches (NDB) scheme, Australian organisations are required to report data breaches.

The OAG has the power to fine organisations up to \$1.8 million.

The Foreman Institute puts the average cost of a data breach in Australia at \$2.13 million.

What's involved?

An effective cyber security awareness training course should be practical and inclusive (all staff should be able to understand the material).

The following topics are usually covered during a session:-

The Privacy Act (outlier responsibilities)

Document handling and classification policies

Types of threats

Phishing attacks

The dangers of downloading "unofficial" files

Social engineering

The dangers of installing "unofficial" apps and programmes

Best practice password management

Public Wi-Fi hotspots (the need for VPN software)

Avoiding insecure or unverified websites

Social media posts (do's and don'ts)

Ongoing vigilance
